## SAMPLE ATTESTATION FORMAT

The following is an example of an acceptable format for an attestation of provider-based compliance. CMS recommends that you place the initial page of the attestation on the official letterhead of the main provider if you elect to use this or any other format. Attestations should be submitted to your fiscal intermediary (FI) or Medicare Administrative Contractor (MAC) with a copy to your CMS Regional Office.

Please note that provider-based determinations under 42 CFR 413.65 in relation to hospitals are not made for the following facilities: ambulatory surgical centers (ASCs), comprehensive outpatient rehabilitation facilities (CORFs), home health agencies (HHAs), skilled nursing facilities (SNFs), hospices, inpatient rehabilitation units that are excluded from the inpatient prospective payment system for acute hospital services, independent diagnostic testing facilities furnishing only services paid under a fee schedule (subject to §413.65(a)(1)(ii)(G)), ESRD facilities, departments of providers that perform functions necessary for the successful operation of the providers but do not furnish services of a type for which separate payment could be claimed under Medicare or Medicaid (for example, laundry or medical records departments), ambulances, and RHCs affiliated with hospitals having more than 50 beds.

## For Critical Access Hospitals Is the main provider a critical access hospital (CAH)? Y N If so, please read and certify the following: There are now prohibitions against the acquisition or creation of off-campus provider-based facilities, including co-located facilities, by a CAH after January 1, 2008. Under 42 CFR §485.610(e), facilities that are provider-based, as defined in 42 CFR §413.65, or distinct part psychiatric or rehabilitation unit, as defined in 42 CFR §485.467, must be located more than a 35-mile drive (or, in the case of mountainous terrain or in areas with only secondary roads available, a 15-mile drive) from a hospital or another CAH. If a CAH does not meet these provisions, its provider agreement is subject to termination in accordance with the provisions of 42 CFR §489.53(a)(3), unless the CAH terminates the provider-based status of the offcampus and/or co-location arrangement. On-campus facilities that are acquired or created after January 1, 2008, are exempted from this regulation, as are rural health clinics (RHCs) as defined in 42 CFR §405.2401(b). Please complete A OR B below: This facility satisfies the requirements of 42 CFR §485.610(e) because (please check all that apply): It is an RHC, on-campus, and/or had provider-based status on or before January 1, 2008. It is located more than a 35-mile drive (or, in the case of mountainous terrain or in areas with only secondary roads available, a 15-mile drive) from a hospital or another CAH. This facility was "under development" prior to January 1, 2008. (Please include a copy of the letter from the CMS Regional Office recognizing that plans existed prior to January 1, 2008, for the CAH to acquire or construct the providerbased facility or distinct part unit.) --OR--I understand that the facility does not meet the provisions of 42 CFR §485.610(e) and wish to attest to the provider-based status of this facility. I further understand that treatment of this facility as provider-based makes the provider's Medicare provider agreement as a CAH subject to termination. For Other Entities: Is the facility a Federally Qualified Health Center (FQHC)? Y If so, and if the FQHC meets the criteria at section 413.65(n), it need not attest to its providerbased status. The provider-based rules do not apply to FQHCs that do not meet the criteria at

If the provider-based facility is a department of a hospital, please describe the physical setting of the premises. For example, is the department in a building that houses other, freestanding, healthcare providers or suppliers? If so, describe how the hospital department is separated from these freestanding spaces.

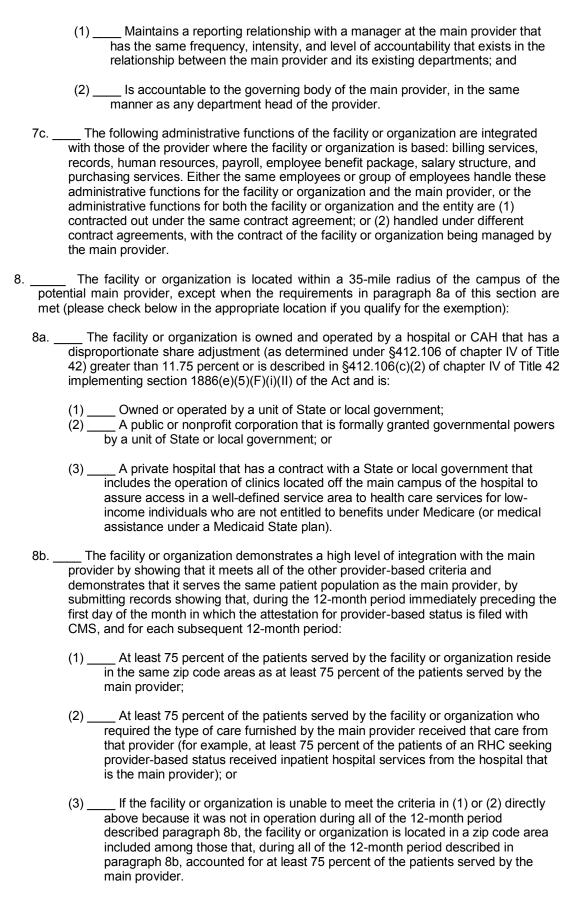

Please complete the following for on campus AND off campus facilities and organizations:

I attest that the facility/organization complies with the following requirements to be provider-based to the main provider (please indicate Yes or No for each requirement):

1.	The department of the provider, the remote location of a hospital, or the satellite facility and the main provider are operated under the same license, except in areas where the State requires a separate license for the department of the provider, the remote location of a hospital, or the satellite facility, or in States where State law does not permit licensure of the provider and the prospective department of the provider, the remote location of a hospital, or the satellite facility under a single license. If the provider and facility/organization are located in a state having a health facilities' cost review commission or other agency that has authority to regulate the rates charged by hospitals or other providers, the commission or agency has not found that the facility/organization is not part of the provider.
2.	The clinical services of the facility or organization seeking provider-based status and the main provider are integrated.
	<ol> <li>Professional staff of the facility or organization have clinical privileges at the main provider.</li> </ol>
	2b The main provider maintains the same monitoring and oversight of the facility or organization as it does for any other department of the provider.
	2c The medical director of the facility or organization seeking provider-based status maintains a reporting relationship with the chief medical officer or other similar official of the main provider that has the same frequency, intensity, and level of accountability that exists in the relationship between the medical director of a department of the main provider and the chief medical officer or other similar official of the main provider, and is under the same type of supervision and accountability as any other director, medical or otherwise, of the main provider.
	2d Medical staff committees or other professional committees at the main provider are responsible for medical activities in the facility or organization, including quality assurance, utilization review, and the coordination and integration of services, to the extent practicable, between the facility or organization seeking provider-based status and the main provider.
	2e Medical records for patients treated in the facility or organization are integrated into a unified retrieval system (or cross reference) of the main provider.
	2f Inpatient and outpatient services of the facility or organization and the main provider are integrated, and patients treated at the facility or organization who require further care have full access to all services of the main provider and are referred where appropriate to the corresponding inpatient or outpatient department or service of the main provider.
3.	The financial operations of the facility or organization are fully integrated within the financial system of the main provider, as evidenced by shared income and expenses between the main provider and the facility or organization. The costs of a facility or organization that is a hospital department are reported in a cost center of the provider, costs of a provider-based facility or organization other than a hospital department are reported in the appropriate cost center or cost centers of the main provider, and the financial status of any provider-based facility or organization is incorporated and readily identified in the main provider's trial balance.

4.	loca the r	_ The facility or organization seeking status as a department of a provider, a remote tion of a hospital, or a satellite facility is held out to the public and other payers as part of main provider. When patients enter the provider-based facility or organization, they are that they are entering the main provider and are billed accordingly.
5.	is no	_ In the case of a hospital outpatient department or a hospital-based entity (if the facility of a hospital outpatient department or a hospital-based entity, please record "NA" "not applicable" and skip to requirements under number 6), the facility or anization fulfills the obligation of:
	5a	Hospital outpatient departments located either on or off the campus of the hospital that is the main provider comply with the anti-dumping rules in §§489.20(I), (m), (q), and (r) and §489.24 of chapter IV of Title 42.
	5b	Physician services furnished in hospital outpatient departments or hospital-based entities (other than RHCs) are billed with the correct site-of-service so that appropriate physician and practitioner payment amounts can be determined under the rules of Part 414 of chapter IV of Title 42.
	5c	Hospital outpatient departments comply with all the terms of the hospital's provider agreement.
	5d	Physicians who work in hospital outpatient departments or hospital-based entities comply with the non-discrimination provisions in §489.10(b) of chapter IV of Title 42.
	5e	Hospital outpatient departments (other than RHCs) treat all Medicare patients, for billing purposes, as hospital outpatients. The departments do not treat some Medicare patients as hospital outpatients and others as physician office patients.
	5f	In the case of a patient admitted to the hospital as an inpatient after receiving treatment in the hospital outpatient department or hospital-based entity, payments for services in the hospital outpatient department or hospital-based entity are subject to the payment window provisions applicable to PPS hospitals and to hospitals and units excluded from PPS set forth at §412.2(c)(5) of chapter IV of Title 42 and at § 413.40(c)(2) of chapter IV of Title 42, respectively. (Note: If the potential main provider is a CAH, enter "NA" for this item).
	5g	(Note: This requirement only applies to off campus facilities. This obligation does not apply to services where there is no professional component to the hospital's technical component charge, e.g laboratory, Physical Therapy, Occupational Therapy, and Speech Pathology services). When a Medicare beneficiary is treated in a hospital outpatient department or hospital-based entity (other than an RHC) that is not located on the main provider's campus, and the treatment is not required to be provided by the antidumping rules in §489.24 of chapter IV of Title 42, the hospital provides written notice to the beneficiary, before the delivery of services, of the amount of the beneficiary's potential financial liability (that is, that the beneficiary will incur a coinsurance liability for an outpatient visit to the hospital as well as for the physician service, and of the amount of that liability).
		(1)The notice is on that the beneficiary can read and understand.
		(2)lf the exact type and extent of care needed is not known, the hospital furnishes a written notice to the patient that explains that the beneficiary will incur a coinsurance liability to the hospital that he or she would not incur if the facility were not provider-based, <u>AND</u> the hospital furnishes an estimate based on typical or average charges for visits to the facility, but states that the patient's actual liability will depend upon the actual services furnished by the hospital.

	(3)If the beneficiary is unconscious, under great duress, or for any other reason is unable to read a written notice and understand and act on his or her own rights, the notice is provided before the delivery of services, to the beneficiary's authorized representative.
	(4)In cases where a hospital outpatient department provides examination or treatment that is required to be provided by the antidumping rules at § 489.24 of chapter IV of Title 42, the notice is given as soon as possible after the existence of an emergency condition has been ruled out or the emergency condition has been stabilized.
5h	Hospital outpatient departments meet applicable hospital health and safety rules for Medicare-participating hospitals in part 482 of this chapter (part 485 if the main provider is a CAH).
