

SOTHEBY'S GRATIS AUCTION ESTIMATE FORM

Sotheby's is pleased to provide you with preliminary auction estimates. At Sotheby's this service is provided at no-charge. There are several points to keep in mind when submitting photographs:

Please submit clear color photographs of each item, both front and back, as well as photographs of signatures, maker's marks, and any areas of damage. Photographs will not be returned.

Please provide us with as much information as you can on each item. Copies of previous valuations are always helpful. If you are enquiring about the contents of an entire house, please attach several photographs that are representative of the property and a Sotheby's representative may contact you.

Please note that these auction estimates will be subject to change based on the Specialist first hand inspection.

Due to the high volume of requests we receive for auction estimates we ask that you please be patient. We will respond to your request within 4 – 6 weeks.

In order to provide exceptional service to our clients, Sotheby's minimum consignment value per item is \$5,000 in New York and £3,000 in London. Please note that Sotheby's is unable to provide auction estimates that fall below our minimum consignment value.
