AVERAGE ADJUSTED GROSS INCOME

The Farm Security and Rural Investment Act of 2002 included average adjusted gross income as a payment eligibility requirement. Any individual or entity requesting certain program payments will be subject to this provision. Any individual or entity that is determined to have an average adjusted gross income, as defined, that is less than 75 percent from farming, ranching or forestry operations and that exceeds \$2.5 million will be ineligible for any covered benefit during the applicable year.

DEFINITIONS AND OTHER INFORMATION

Average Adjusted Gross Income means the average of the adjusted gross income or comparable measure of the individual or entity over the preceding 3 tax years. For instance, if 2003 program benefits are requested, the tax years for average adjusted gross income determination would be 2002, 2001 and 2000.

Entity means a corporation, joint stock company, association, limited partnership, charitable organization, or similar entity, including any such entity or organization participating in the operation as a partner in a general partnership, a participant in a joint venture, a grantor in a revocable trust, or as a participant in a similar entity, as determined by the Secretary.

The manner in which the Adjusted Gross Income can be determined for an entity can be found in the regulations at 7 CFR Part 1400.

Commensurate Reduction means that any covered benefit issued to an entity, general partnership, or joint venture shall be reduced by an amount that is commensurate with the direct or indirect ownership interest the entity, general partnership, or joint venture of each individual who does not comply with the adjusted gross revenue requirement.

Certification of Compliance means that an individual or entity shall provide either a certification by a certified public accountant that the average adjusted gross income does not exceed the requirement; or provide information and documentation regarding the adjusted gross income through other procedures established by the Secretary.

Income from farming, ranching or forestry means income derived from producing crops, livestock, or unfinished raw forestry products.

Special Rules for Certain Individual and Entities are applicable to those entities that are not required to file a tax return, and individuals and entities that did not have taxable income in one or more tax years used to determine the 3-year average. Please consult with personnel at your local FSA office or service center for more information.
