## **Notes**

- 1. This movement document meets the reporting requirements:
  - of an Animal Transport Certificate (ATC) as required by Article 14 of the Welfare of Animals (Transport) Order 1997 (WATO); and
  - of the Pigs (Records, Identification and Movement) Order 2007 (PRIMO); and
  - of the Disease Control (England) Order 2003 (as amended) (DCO).
- 2. The bold boxes are mandatory fields. However, if you fully complete all the boxes on the form you will not need to complete a separate ATC document. The Holding of birth box needs to be completed only for pigs moving on a temporary mark.
- 3. We will use all the information submitted to us on this form, including the information provided voluntarily in the boxes not marked bold, for disease control purposes only. This voluntary information will not be kept for WATO enforcement. However, WATO animal transport certificate rules require transporters: to carry this information (in any format); make it available to an inspector on demand and; keep it for six months after the journey. If a transporter chooses to keep the animal transport certificate information on an AML2, then the transporter should make the AML2 available to the Inspector and a copy may be taken for enforcement purposes.

- 4. By completing and signing the relevant sections of this movement document you are stating that you understand the following:
  - Failure to include the name of the owner of the animals will mean this document does not meet WATO requirements.
- 5. This document serves as a **single** movement reporting document. Each stage of a multiple move must be completed on a separate movement reporting document.
- 6. The three Yes/No questions in Section D should only be completed if the move involves premises which are part of a farm assured scheme.

## **DATA PROTECTION**

The Data Protection Statement may be found at: http://www.defra.gov.uk/animalh/movements/documents/default.htm
