DTS students must complete this portion of the attendance roster:

The instructor is responsible for verifying that students in attendance are the students who signed the attendance roster.

Student's Name: Have the student print his/her full name; no nicknames or abbreviations.

Student's Customer Number: Have the student enter the learner's permit number.

Time In: Have the student record the time that he/she arrived for class. Students are not allowed to sign in for another student.

If a student arrives late, the time must be recorded reflecting the actual time of arrival. This will assist you in determining how much missed time the student must make-up prior to issuance of a certificate of completion.

Time Out: Have the student record the actual time that he/she completed the training for that date, prior to leaving. Students are not allowed to sign out for another student.

If a student leaves early, the actual time that the student left for the day must be recorded. This will assist you in determining how much missed time the student must make-up prior to issuance of a certificate of completion.

Student's Signature: Have the student sign his/her full name at the completion of the instruction for the day. Students are not allowed to sign the roster prior to completing the classroom instruction for that specific day.

After completion of the course, the Driver Training School providing classroom instruction must:

For Classroom Course Only:

Complete only the **Classroom Course** section of the DTS-B (formerly CDT-B).

Write **VOID IN CAR** across the section for **In-Car Course** information and draw a diagonal line (/) across the in-car course section.
