## **INSTRUCTIONS**

In order to register a motor vehicle, trailer, semitrailer or manufactured home, or to secure a new title for such a vehicle, the customer must submit a certificate of title. If unable to do so because the title is lost, unlawfully detained by someone who currently holds the title, or if the title is otherwise "not available", the customer may file an affidavit instead.

## **Insurance Companies**

When an insurance company files an affidavit, the affidavit must indicate that the vehicle was acquired as a result of the claims process with the attached supporting documentation showing a claim was paid. Also the affidavit must include a description of the applicant's efforts to obtain the title from the previous owner.

DMV will review the customer's applications and affidavit submitted along with information concerning the circumstances of the case. If DMV determines that the customer is entitled to registration and or titling, it will register the vehicle and issue a new registration card, license plate(s) and a certificate of title, salvage certificate or non-repairable certificate.
