## Desktop Underwriter Property Inspection Report

Desktop Underwriter's enhanced risk assessment capability enables the use of the Desktop Underwriter® Property Inspection Report (Form 2075), which requires an exterior-only inspection of the subject property from the street by a state-licensed or state-certified appraiser without an estimate of market value for the property.

**View Recorded Training:** <http://fanniemae.articulate-online.com/7778703690>

Form 2075 is not an appraisal report. When Desktop Underwriter recommends Form 2075, it has judged the reasonableness of the sales price as adequate collateral for the mortgage loan. Therefore, a property appraisal is not required for the specific transaction.

### Copies

Original, plus one.

### Printing Instructions

This form must be printed on legal size paper, using portrait format. When printing this form, you must use the "shrink to fit" option in the Adobe Acrobat print dialogue box.

### Instructions

When Desktop Underwriter recommends Form 2075, we will rely on the property valuation performed by the system's proprietary automated valuation model. Lenders are required to obtain an exterior-only property inspection of the subject property. No estimate of value is required. If the property inspection reveals adverse physical deficiencies or conditions, or the subject property does not conform to the neighborhood, the lender is required to upgrade to a complete interior and exterior appraisal reported on Form 2055.

The appraiser must attach any required exhibits to support each inspection report. The required exhibits for Form 2075 are a street map that shows the location of the subject property and a photograph that shows the front of the subject property.
