

Arizona Game and Fish Department

Aquatic Invasive Species Boat Inspection Report (AISBIR)

Per Watercraft Inspection Protocols Recommended by "Western Regional Panel on Aquatic Invasive Species"

Form with fields: Date, Time, Location, Inspection By, Vessel Type, Make, Model, Size, Vessel Name, State Registration # or USCG Documented #, Owner, Address, City, State, Zip, Phone.

Commercial Transport Company or Name of Person transporting vessel; Transporter/Owner Contact Phone Number

Date Removed from Water; How Long in Water; Body of Water

Weather Conditions Since Removed From Water (circle all that apply): Wet, Moist, Humid, Dry, Hot, Cold

Final or Ultimate Launch Location/Destination:

Destination Jurisdiction(s); Date Notified:

How Long Will Boat Stay out of Water in Current Location (Desiccation Period):

Anticipated Travel Date; Destination ETA:

CLOSE INSPECTION:

Table with 4 columns: IDENTIFIED MUSSEL LOCATIONS, Visible AIS or Mussels (Y/N), Visible Vegetation Y/N, Comments. Rows include Hull, Engine, Outdrive, Propeller Shaft, Thrusters; Trim Tabs, Pitot Tubes, Transducers, Rudders, etc.; Generator; Bilge, Through Hull Fitting; Bait and/or Live Wells; Anchor Rope/Chain and locker; Trailer.

MUSSELS PRESENT?? (Yes = Decontamination Required Before Transport) - Explain Decontamination Plan: Where; By Whom (Name); How:

I affirm that the above information is true. I understand that this inspection form does not certify that the watercraft listed herein has been completely decontaminated; only that it was self-inspected by the owner/transporter for presence/absence of visible aquatic invasive species (AIS), including invasive mussels. I understand the vessel may not be transported from the inspection site or other location as authorized by the Department until such time as vessel has been properly cleaned, drained and dried for all aquatic invasive species, per current AGFD Director's Orders. I further understand that it is unlawful to transport Arizona listed AIS (e.g., quagga mussels) under A.R.S §17-309 and §17-255.02, and Arizona Administrative Code Rule R12-4-406.

Signed: _____ Date: _____
Printed Name: _____
Legal Standing in this Matter: _____

REQUIRED BEFORE TRANSPORT - Please fax (623-236-7366) or scan/email (AIScomments@azgfd.gov) this completed form to AGFD

AGFD INCIDENT NUMBER: _____ Date Released (no Visible adult mussels standard attained): _____

Arizona Game and Fish Department **AIS Boat Inspection Report (AISBIR)**

Per Watercraft Inspection Protocols Recommended by "Western Regional Panel on Aquatic Invasive Species"

Comments/notes:

Long Term Moored Boat Decontamination Procedures:

- Step 1. Clean/remove any clinging material such as plants, animals and mud from anchor, boat, motor, equipment and trailer.
- Step 2. Remove the plug (if applicable) and drain the water from the bilge, live-well and any other compartments that could hold water. Drain water from engine and engine cooling systems(s).
- Step 3. Physically remove all visible attached mussels from boat surfaces, motors, impellers, outdrives, rudders, anchor(s) and through hull fittings.
- Step 4. Flush engine and cooling system and any other through hull fittings with hot water that is exiting those areas at 140 degree Fahrenheit for ten to thirty seconds.
- Step 5. Keep the boat out of the water and dry (desiccation) all areas of the boat, including bilge, through hull fittings and engine, for a minimum of 18 consecutive days during the months of November through April and 7 consecutive days from May through October.
- Step 6. Completely fill out and file the required Aquatic Invasive Species Boating Inspection Report (AISBIR). This form can be downloaded at www.azgfd.gov/ais.
