 Print or Stamp Name of Facility

 Signature and Title of Issuing Individual

_____/_____/_____
Month Day Year

Hib and Pneumococcal vaccines are only required for child care.

SPECIAL INSTRUCTIONS

- Child Care Facilities: As a part of the child care regulations, every facility must have a Certificate of Immunization Compliance Form (Form 121) or the white computer generated version of the form on file for each child enrolled. **Each child must be up-to-date on all required vaccines.**
- Child Care Operators: A copy of the 121 Compliance Forms and roster of all children enrolled must be retained by the child care facility in a central location for appropriate review. Incomplete forms should be retained in a separate file for appropriate review and follow-up.
- Kindergarten • 12th Grade: All kindergarten, first grade entrants who did not attend kindergarten, first time students, and students transferring to a Mississippi school from an out-of-state school **must be vaccinated on all required** school vaccines. Hib and Pneumococcal vaccines are only required for child care.
- School Officials: This form or a copy must be filed permanently in the student's cumulative folder. Should a student transfer, the certificate of compliance form is to be sent with the cumulative folder. Compliance forms and an enrollment roster should be retained in a separate file for appropriate review. Incomplete forms should be retained in a separate file for appropriate review and follow-up.
- College Students: Two doses of the MMR vaccine are **recommended** for all first-time enterers to member institutions of the Mississippi university systems. Other colleges and junior colleges in the state have chosen to implement a measles-rubella immunity standard for college admission. Students should check with their college for required immunizations.
- College Officials: This form should be kept in a permanent file and accessible to representatives of the Mississippi State Department of Health upon request. Officials should check with their college for required immunizations. The original or a copy of this form should be transferred with the student, should a change in educational institution occur.
- Employees: Employees must provide proof of immunity to measles and rubella. A completed and signed form should be submitted to your employer as proof of compliance with immunity requirements for employment.
- Employers: This form should be kept in a permanent file accessible to representatives of the Mississippi State Department of Health upon request.
- Parents: The Varicella vaccine is a required vaccine for child care and school entry. A reliable history of chicken pox is acceptable.
- Health Care Providers: Re-Immunization is necessary when:
1. Measles vaccine was administered before 12 months of age and/or before January 1, 1968.
 2. Rubella vaccine was administered before 12 months of age and/or before 1969.
 3. Varicella vaccine was administered before 12 months of age.
- Vaccines not required and when: Measles or Rubella vaccines are not required for females who are pregnant. If pregnancy is suspected, a **valid certificate of Medical Exemption from Immunization Requirements for Adults (Form Number 122)** is required until pregnancy is resolved.
- Measles or Mumps vaccines are not required for persons born before January 1, 1957.
