Additional SSN or FEIN numbers may be provided on an attachment.

**Daytime Phone:** Enter phone numbers for both the seller (grantor) and buyer (grantee).

**PART 8 – PREPARER INFORMATION**

All Realty Transfer Certificates must be signed and dated by the preparer. By his/her signature the preparer indicates the information provided is true and correct to the best of his/her knowledge, that the seller (grantor) and the buyer (grantee) have examined the completed Realty Transfer Certificate and agree the information contained within is correct and accurate.

# WATER RIGHT DISCLOSURE INFORMATION

The Water Right Disclosure is required by Montana Law. Legislators decided it is important for both the buyer and seller of property to know what the water right situation is — whether any water rights exist, and whether they are being transferred with or withheld from the property.

A water right is a legally protected right to beneficially use water in priority that was obtained in accordance with Montana law. Buyers should be careful to investigate whether water being used on a piece of property amounts to a valid water right, or is merely an unauthorized and unprotectable use of water. In Montana all irrigation water rights must have a valid DNRC water right number to be of record. However, existing rights for livestock and individual domestic, as opposed to municipal uses, based on an instream flow or groundwater source before July 1, 1973, do not need a DNRC water right number. If a water right does not have a DNRC number, and does not fall within the above narrow exception, then there is no water right.

Once the water rights appurtenant to a piece of property have been identified, the investigation of water right should not stop there. Although a water right may have a valid DNRC water right number, it may still be subject to final adjudication in Montana's general stream adjudication. The Montana Water Court is currently adjudicating all Statements of Claim for pre-July 1, 1973, water rights. How good a water right is depends on how it comes out of the adjudication, and how its priority compares to other water rights on a source of supply. You may need to consult an attorney or water rights consultant for an opinion as to the status of that water right. The Montana Water Court can answer questions about the current status of Statements of Claim being adjudicated by calling 1-800-624-3270 (in state) or 406-586-4364.

If there are water rights which have been historically used on the property being transferred, but are not going to be transferred in the sale of land, the deed must specifically reserve those water rights. Otherwise, if the deed is silent, the water rights automatically pass with the land by operation of law.

The following descriptions may be of some help in determining which box to mark in Part 6, Water Rights Disclosure. If further assistance is needed, you may want to seek legal advice.

- **Seller (Grantor) has water rights on record with DNRC and some or all transfer to Buyer** means there are water rights on file with the Department of Natural Resources & Conservation that apply to the land being sold. Either some or all of those water rights will transfer to the buyer. An Ownership Update form (Form #608) must be filed to update the ownership of the water right. Use the buff colored form attached to this RTC packet or the form can be found on the Internet at [http://www.dnrc.mt.gov/wrd/water\\_rts/wr\\_general\\_info/wrforms/wr\\_forms.asp](http://www.dnrc.mt.gov/wrd/water_rts/wr_general_info/wrforms/wr_forms.asp).
- **Seller (Grantor) does not have water rights on record with DNRC** means that there are no water rights on file with the Department of Natural Resources & Conservation that apply to the land being sold. If water is used on the land, please contact your local regional office for assistance.
- **Seller (Grantor) is exempt from this disclosure requirement** means the seller is exempt from the Water Right disclosure requirement because the property is served by a public water supply or the deed was in escrow prior to January 1, 1998.

Contact the DNRC for information if water is used on the property other than described above.

## IMPORTANT INFORMATION

- Montana law requires this form be filed by the seller within 60 days after recording a change in ownership of real property which has water rights on record with the DNRC.
- **Do not** file this form if your **only** use of water is from an irrigation district, municipal system, water users association, or other public water supply.
- Water rights in Montana, including **all irrigation water rights**, must have a valid DNRC water right number to be of record. However, existing rights for livestock and individual domestic as opposed to municipal uses based on an in stream flow or groundwater source appropriated before July 1, 1973, do not need a DNRC water right number. If the water use does not have a DNRC water right number and does not fall within the above narrow exception, then you do not have a water right. Contact the DNRC for information on how to acquire a water right.

Described below is further explanation of exempt rights or water rights which are valid without a DNRC water right number. A DNRC water right number is not required for the following if the use began:

- prior to January 1, 1962: groundwater used for individual domestic use, as opposed to municipal use;
- prior to January 1, 1962: groundwater used for stock;
- between January 1, 1962 through June 30, 1973: groundwater used for stock or domestic purpose **and** a GW1, GW2, or GW3 form is properly filed in the courthouse; or
- prior to July 1, 1973: instream surface water used for stock or domestic purposes.

If a water right does not have a DNRC number, and does not fall within the above exceptions, then there is no water right.
