For a farm that has Planted and Considered Planted acres of covered commodities and peanuts in excess of 118 percent the total base acres on the farm, all producers with an interest in covered commodities or peanuts may choose the number of acres of each Planted and Considered Planted covered commodity or peanuts that may receive an ACRE payment.

This allocation shall occur prior to the end of the contract period. If an allocation is not made by the end of the contract period or if all persons with a share of a Planted and Considered Planted covered commodity or peanuts do not agree to the allocation by the end of the contract period, then CCC shall allocate the ACRE payment acres based on the percentage of Planted and Considered Planted acres of a covered commodity and peanuts to the total Planted and Considered Planted acres of covered commodities and peanuts on the farm.

**Note:** An allocation is not necessary if one of the following apply:

- only one covered commodity crop is planted
- the sum of the Planted and Considered Planted acres of covered commodities and peanuts is less than 118 percent of the total base acres.
