Section 7

Calculate Your Minimum Offer Amount

The next steps calculate your minimum offer amount. The amount of time you take to pay your offer in full will affect your minimum offer amount. Paying over a shorter period of time will result in a smaller minimum offer amount.

If you will pay your offer within 60 days from written acceptance of the offer (Payment Option 1), multiply "Remaining Monthly Income" (Box 5) by 48 to get "Future Remaining Income" (Box 6).

Enter the total from Box 5 here

\$ X 48 =

Box 6 Future Remaining Income
\$

If you will pay your offer in more than 60 days and in less than or equal to 60 months and pay in monthly installments (Payment Option 2), multiply "Remaining Monthly Income" (Box 5) by 60 to get "Future Remaining Income" (Box 7).

Enter the total from Box 5 here

\$ X 60 =

Box 7 Future Remaining Income

\$

Determine your minimum offer amount by adding the total available assets from Box 1 to amount in either Box 6 or Box 7.

If you have special circumstances that would hinder you from paying this amount, explain them on Form OIC-1 (Offer in Compromise) page 2, section 3 ("Explanation of Circumstances").
