The California Prenatal Screening Program bills patients directly for the Program fee. Laboratories may bill patients separately a **reasonable** fee for drawing and handling blood specimens, taking into account that the State Program provides tubes and mailing supplies free of charge to laboratories and draw stations, as well as clinicians.

Reminder: Use only Beckton- Dickinson 3.5ml Serum Separator Tubes (SST) with a gold “vacutainer” top as supplied by the Prenatal Screening Program. Screening test results are based upon calibration for these tubes only.

Important Note: First Trimester specimens **MUST** be centrifuged or they cannot be analyzed.

Program information and materials may be found on the Program website at:
www.cdph.ca.gov/programs/pns
