SUPPLEMENT TO THE RATE REQUESTS FOR DUAL AGENCY AFDC-FC AND AAP CHILDREN QUARTERLY STATISTICAL REPORT FC-AAP 84 (1/09)

INSTRUCTIONS

CONTENT

The Supplement to the Rate Requests for Dual Agency Aid to Families with Dependent Children-Foster Care (AFDC-FC) and Adoption Assistance Program (AAP) Quarterly Statistical Report (FC-AAP 84) requires statistical information on the number and nature of supplement to the rate requests for dual agency AFDC-FC or AAP children, subsequent appeals regarding denied supplement to the rate requests, and supplement to the rate requests changed from being denied to being authorized.

PURPOSE

In 2007, the California Legislature passed SB 84 (Chapter 177, Statutes of 2007), which requires the CDSS and the Department of Developmental Services (DDS) to report semiannually to the Legislature data collected on the number and nature of supplement to the rate requests. The supplement to the rate is established by Welfare & Institutions Code (W&IC) Section 11464(c)(2)(A). The FC-AAP 84 report provides CDSS with information about the number of requests received for a supplement to the rate under the AFDC-FC or AAP programs, including the levels of the supplement to the rate requests authorized. It also collects similar information regarding appeals on the supplement to the rate requests that were initially denied and the number of the supplement to the rate requests authorized upon appeal. This report also provides county, state, and federal entities with information needed for budgeting, staffing, program planning, and other purposes.

COMPLETION AND SUBMISSION

Each county welfare department is responsible for ensuring that this report is fully and accurately completed. If portions of the report are completed by more than one entity within the County and/or outside agencies, the single contact person for each county responsible for submitting the one report to the state shall review the report for completeness and accuracy prior to submittal.

Counties that are licensed to provide adoption services will provide their AAP data to their county's single contact person to submit in the county's one report.

Counties that are not licensed to provide adoption services will receive their completed AAP paperwork from the CDSS Adoptions District Office that handles their county's adoptions. The counties will then provide the AAP data to their single contact person to submit in the county's one report.

Reports are to be received by the California Department of Social Services (CDSS) on or before the 30th calendar day of the month following the report quarter. The four report quarters for the state fiscal year are July through September, October through December, January through March, and April through June. <u>Children (AFDC-FC)</u>: A child under 19 years of age who continues to attend high school or the equivalent level of vocational or technical training on a full-time basis, or is pursuing a high school equivalency certificate, and may reasonably be expected to complete their education by their 19th birthday.

Children under three years of age are not eligible for the supplement to the rate.

Early Start Intervention Services, California: The California State Legislature passed the California Early Intervention Services Act (CEISA) in 1993 (CEISA; 14G.C. Section 95000, et seq.). CEISA established state authority to develop an early intervention service system that was congruent with federal requirements. DDS plans, develops, implements, and monitors the statewide early intervention services system in collaboration with the California Department of Education (CDE), and with the advice and assistance from the State Interagency Coordinating Council (ICC). The Departments of Health, Social Services, Mental Health, and Alcohol and Drug Programs cooperate and coordinate with DDS and CDE in the delivery of early intervention services.

Lanterman Act: The Lanterman Developmental Disabilities Act (AB 846), also known as the Lanterman Act, is a California law, initially proposed by Assembly Member Frank D. Lanterman in 1973 and passed in 1977, that gives people with developmental disabilities the right to services and supports that enable them to live a more independent and normal life.

<u>Levels</u>: The supplement to the rate structure has four levels established in increments of \$250, \$500, \$750 and \$1,000.

<u>Supplement to the Rate</u>: This is a supplement to the dual agency rate, broken into four levels, not to exceed one thousand dollars (\$1,000) for dual agency children three years of age and older if it is determined the child has extraordinary care and supervision needs that cannot be met within the \$2,006 dual agency rate.
