General Information

References in these instructions are to the California Revenue and Taxation Code (R&TC).

Business Tax Credit Limitation – For taxable years beginning on or after January 1, 2008, and before January 1, 2010, business tax credits can only offset 50% of the net tax, if a corporation's taxable income is \$500,000 or more, or if an individual's net business income is \$500,000 or more.

Business tax credits disallowed due to the 50% limitation may be carried over. The carryover period for disallowed credits is extended by the number of taxable years the credits were not allowed. For more information see the applicable Schedule P (100, 100W, 540, 540NR, or 541), Alternative Minimum Tax and Credit Limitations. Taxpayers are required to keep track of the disallowed business tax credits on a worksheet and provide it to the Franchise Tax Board (FTB) upon request.

A Purpose

Use form FTB 3540, Credit Carryover Summary, to figure a prior year credit carryover of one or more repealed credits that no longer have separate credit forms. Credit carryovers may **not** be carried back and applied against a prior year's tax. The repeal dates have passed for the credits listed below. However, these credits had carryover features. You may claim these credits **only** if carryovers are available from a prior year(s).

You must keep your old tax returns along with the appropriate information to substantiate that you are entitled to the credits claimed on this form. The FTB can request that information even on tax returns for years that are past the statute of limitations.

You do not need to complete this form if you file Schedule P (100, 100W, 540, 540NR, or 541).

B Assignment of Credits

Assigned Credits to Affiliated Corporations – For taxable years beginning on or after July 1, 2008, credits earned by members of a combined reporting group may be assigned to an affiliated corporation that is a member of the same combined reporting group. A credit assigned may only be applied by the affiliated corporation against their tax in a taxable year beginning on or after January 1, 2010.

For more information, get form FTB 3544, Election to Assign Credit Within Combined Reporting Group.

D Limitations

In general, a credit carryover cannot reduce the minimum franchise tax (corporations and S corporations) and the annual tax (limited partnerships, limited liability companies (LLCs) classified as partnerships, limited liability partnerships), the alternative minimum tax (corporations, exempt organizations, individuals, and fiduciaries), the built-in gains tax (S corporations), or the excess net passive income tax (S corporations).

However, the solar energy credit carryover and the commercial solar energy credit carryover may reduce alternative minimum tax. Get Schedule P (100, 100W, 540, 540NR, or 541).

If the available credit carryover for the current taxable year exceeds the current year tax, any unused amount may be carried over to succeeding years unless the credit carryover period has expired. Apply the carryover to the earliest taxable year(s) possible.

In no event can a credit carryover be carried back and applied against a prior year's tax.

Single Member LLCs (SMLLC)

If a taxpayer owns an interest in a disregarded business entity [a single member limited liability company (SMLLC) not recognized by California, and for tax purposes treated as a sole proprietorship owned by an individual or a branch owned by a corporation], the credit amount received from the disregarded entity that can be utilized is limited to the difference between the taxpayer's regular tax figured **with** the income of the disregarded entity, and the taxpayer's regular tax figured **without** the income of the disregarded entity.

An SMLLC may be disregarded as an entity separate from its owner, and is subject to statutory provisions that recognize otherwise disregarded entities for certain tax purposes. Get Form 568, Limited Liability Company Income Tax Booklet, for more information.

If the disregarded entity reports a loss, the taxpayer may not claim the credit this year, but can carry over the credit amount received from the disregarded entity.
