*If your project was successful please complete the Optional Case Study Form at the end of this document and send it to us. TCEQ likes to recognize companies who have had great successes.*

Note: Submission of waste minimization information and information about HW generated and TRI released and transferred for the previous reporting year is required by the Waste Reduction Policy Act. SQG's that are non-TRI Form R reporters meet this requirement through submission of their annual waste summary. All hazardous waste generators are required to submit an annual waste summary. Submission of this form does not substitute for submission of the annual waste summary.
