Sellers

Your sales are subject to the applicable taxes on non-highway diesel motor fuel or residual petroleum product, unless the purchaser gives you a properly completed certification at or before the time of delivery. Keep the certification for at least three years from the due date of the return that reports the final purchase of fuel by the exempt organization.

Definitions

Diesel motor fuel is No. 1 diesel motor fuel, No. 2 diesel motor fuel, biodiesel, kerosene, fuel oil or other middle distillate and also motor fuel suitable for use in the operation of an engine of the diesel type. It does not include any product specifically designated as No. 4 diesel motor fuel.

Non-highway diesel motor fuel is any diesel motor fuel that is designated for use other than on a public highway (except for the use of the public highway by farmers to reach adjacent lands), and is dyed diesel motor fuel.

Highway diesel motor fuel is any diesel motor fuel which is not non-highway diesel motor fuel.

Residual petroleum product includes the topped crude of refinery operations consisting of No. 5 fuel oil, No. 6 fuel oil, bunker C, and that special grade of diesel product specifically designated as No. 4 diesel fuel that is not suitable for use in the operation of a motor vehicle engine.

Dyed diesel motor fuel is diesel motor fuel that has been dyed in accordance with and for the purpose of complying with the provisions of 26 USC 4082(a).

General information

All non-highway diesel motor fuel and residual petroleum product must be delivered to the exempt organization's qualifying premises and used for residential heating or for the exempt purposes of the organization. The non-highway diesel motor fuel may **not** be purchased at a filling station or delivered into a tank that can fuel a motor vehicle.

This certification may not be used for purchases of fuel for use in unrelated business activities. An exempt organization is engaged in unrelated business activities if the trade or business regularly carried on by the organization is not substantially related (aside from its need for income or funds or the use it makes of the

profits derived) to the exercise or performance of its charitable, educational, or other purpose or function.

Volunteer fire companies and voluntary ambulance services may purchase motor fuel or diesel motor fuel for use in motor vehicles exempt from NYS and local sales taxes by giving the supplier both a properly completed Form FT-937, *Certificate of Exemption for Qualified Hospitals, Volunteer Fire Companies and Volunteer Ambulance Services*, and Form ST-119, *Exempt Organization Certificate*.

Exempt organizations that use non-highway diesel motor fuel or residual petroleum product in the production of tangible personal property for sale by manufacturing, processing, or assembly should give the supplier a properly completed Form FT-1012, *Manufacturing Certification for Non-Highway Diesel Motor Fuel and Residual Petroleum Product*, for exemption from NYS and local sales taxes, the diesel motor fuel tax, and the petroleum business tax.

Exempt organizations that must pay NYS and local sales taxes may claim a refund of the sales taxes by completing and filing Form FT-500, *Application for Refund of Sales Tax Paid on Petroleum Products*.

Certain exempt organizations may be able to claim a refund of the excise tax on Form FT-946/1046, *Motor/Diesel Motor Fuel Tax Refund Application*.

The exempt organization must use Form TP-385, *Certification of Residential Use of Energy Purchases*, to certify and compute the percentage of fuel used for residential heating purposes and nonresidential heating purposes when only one tank is used for both purposes.
