January 2003

TO: Chronic Disease and Rehabilitation Hospitals Participating in MassHealth
FROM: Wendy E. Warring, Commissioner *Wendy Warring, ds/h*
RE: Changes in Clinical Assessment Forms

Background

The Division determines clinical eligibility for MassHealth long-term-care services based upon documentation submitted by the provider. The Long Term Care Assessment form has been replaced by two new forms in order to facilitate communication between providers and the Division.

New Forms

Attached to this bulletin are copies of the two new forms required for approving referrals for long-term-care services, including, but not limited to, nursing-facility and adult-day-health services.

- Request for Services (RFS-1) (formerly called the MassHealth Long Term Care Assessment form)
- Minimum Data Set – Home Care (MDS-HC)

Chronic disease and rehabilitation hospitals must begin using these new forms by February 1, 2003. Please discard all previous versions of the Long Term Care Assessment form.

Who May Complete the MDS-HC

The MDS-HC must be completed by an assessment coordinator. The assessment coordinator must be a registered nurse who certifies the accuracy and completeness of the MDS-HC.

The following sections of the MDS-HC may be completed by a licensed social worker (LSW, LCSW, or LICSW).

- AA – Name and Identification Numbers
 - BB – Personal Items
 - CC – Referral Items
 - B – Cognitive Patterns
 - C – Communication/Hearing Patterns
 - E – Mood and Behavior Patterns
 - F – Social Functioning
 - G – Informal Support Services
 - O – Environmental Assessment
