

Under Internal Revenue Service (IRS) rules, some health care services and products are only eligible for reimbursement from a health care account when your doctor or other licensed health care provider certifies that they are medically necessary. Your Spending Account™ has developed this form to assist you and your health care provider in providing this information. As an alternative, your provider may also write a letter or prescription, as long as it includes all requirements outlined below.

### Dual Purpose Items

When a health care service or product can be used for both medical and general health reasons, it is referred to as “dual purpose”. For these items, you must provide additional information to confirm the expense is medically necessary.

### Examples of Items Requiring a Statement of Medical Necessity:

- Automobile Modifications
- Braille Books and Magazines
- Breast Pumps
- Cosmetic Surgery
- Dental Implants
- Exercise Equipment
- Humidifiers
- Lodging
- Massage Therapy
- Mattresses
- Prescribed Food
- Sunglasses
- Support Hose
- Tutoring
- Umbilical Cord Storage
- Vacuums
- Weight Loss Programs
- Wigs

*\*Note that for over-the-counter medicines purchased after December 31, 2010, you must provide a prescription from an authorized health care provider – the Statement of Medical Necessity may not be substituted for a prescription.*

A complete listing of eligible expenses and documentation requirements can be found on the YSA Web site. All items requiring additional documentation, including dual purpose items, can be identified by a “?” on the list of eligible expenses.

### Requirements

- Name of particular product or service being prescribed
