The Initiated Law of 1976 defines "returnable container" and "empty returnable container" as follows: "Returnable container" means a beverage container upon which a deposit of at least 10 cents has been paid, or is required to be paid upon removal of the container from the sale or consumption area, and for which a refund of at least 10 cents in cash is payable by every dealer or distributor in this state of that beverage in beverage containers . . . "Empty returnable container" means a returnable container which contains nothing except the residue of its original contents. The Michigan Department of Treasury interprets the word "handled" as found in Public Act 148 of 1989 to mean an empty returnable container which a consumer has returned to a dealer for a deposit refund. It also includes empty returnable containers which, when full, were sold by a dealer for consumption on the premises but upon which no deposit was collected or a refund given to a consumer.
