**TO THE DRIVER LICENSE CUSTOMER:** To improve customer service, some vision test providers have enrolled in DMV’s Vision Registry, which enables them to submit vision test results to DMV electronically. A list of providers who are enrolled in DMV’s Vision Registry can be found at dmv.ny.gov/licrenew. If you visit one of those providers for your required vision test, you do not have to use this form to apply for or renew your license, including when you renew by mail or online. However, your provider may choose to complete this report. This report must be completed if you use a provider who is not in DMV’s Vision Registry. To avoid a trip to DMV, you can mail the completed report with your license renewal application (form MV-2) or use it if you renew your license at dmv.ny.gov/licrenew.

**TO THE PROVIDER:** This form should be used only for patients who are able to achieve a minimum Snellen Test score of 20/40 with one or both eyes, with or without the use of corrective lenses (refer to “NOTE” at the bottom of this page). Vision test results can be entered on this form by a licensed physician, physician’s assistant, registered nurse, nurse practitioner, optician, optometrist, ophthalmologist, or supervised staff of any of these providers. To enroll in DMV’s Vision Registry, please visit dmv.ny.gov/visionprovide.htm.
