B. Cost Basis Instructions (Optional)

Invesco Investment Services, Inc. (IIS) is responsible for tracking and reporting to the IRS adjusted cost basis on shares acquired on or after January 1, 2012, or in the case of Invesco Oppenheimer SteelPath Funds, January 1, 2011 (covered shares). Shares will be redeemed utilizing the current cost basis method on your account. If you have not previously elected a cost basis method, then IIS's default method will be applied. If you would like to change your cost basis method, then please choose one of the methods below.

I choose the following cost basis method for all funds and transactions under the above account number(s):

- Average Cost* (Not available for all funds.)
- First-In, First-Out (FIFO)
- High Cost
- Loss Gain Utilization
- Last-In, First-Out (LIFO)
- Specific Lot Identification**
- Low Cost

*Average Cost is not available for all funds. Please refer to your fund's prospectus for information about the methods available. The Average Cost method can be revoked and replaced with another method, up to the time of the first disposition of covered shares. After the first disposition of covered shares has occurred, then a change from the Average Cost method is effective only for the shares acquired after the change was made. Shares acquired prior to the change will retain the previously averaged cost per share for the purpose of calculating the gain or loss at the time of sale.

**If choosing the Specific Lot Identification cost basis method, your redemption must be in shares. Please attach a separate page including the date of purchase, fund number and number of shares you are requesting to redeem.

If you wish to elect a different cost basis method on specific funds, please attach a separate letter including the fund number and method preferred for that transaction.

Special Rules of Noncovered Shares (This section applies to shares acquired prior to January 1, 2012, only, or in the case of Invesco Oppenheimer SteelPath Funds, January 1, 2011.)

With the exception of the Specific Lot Identification method, Invesco depletes noncovered shares (shares purchased prior to January 1, 2012, or shares without cost basis information) in First-In, First-Out (FIFO) order before applying your elected method to your remaining covered shares.

Please refer to your tax advisor for more information regarding cost basis.
