Excel Version - Instructions

2009 Version - Mobilization Plan

All of the Forms found in the Mobilization Plan - Appendix M have been done in Excel for your convenience in completing the

| form. | | | | | |
|---|--|--|--|--|--|
| While each form is different, there is one common theme throughout and that is the color coding of certain boxes, | | | | | |
| Boxes colored with a light tan: These are boxes that you input information either text, numbers or both. | | | | | |
| Boxes colored with a light red: These boxes are set with formulas to calculate math or copy text. | | | | | |
| Boxes colored with a light blue: These boxes are for either EMD or WSP use. | | | | | |
| Additionally there are some check boxes that may require input, that haven't been colored. | | | | | |
| The Tabs below are colored for quick reference as to the type of form. | | | | | |

Saving File:

Save this copy of the forms as a master copy of mobilization forms. Then for each mobilization incident, save a copy with the incident name (example: 2005 School Mobilization).

Removing Pages:

You may not use all of the forms/pages. If that is the case, you can delete a page by putting the pointer on the tab, and clicking the right mouse button. This will bring up a menu. Select "delete", a box will appear advising that you are permanently deleting the page and data. If you are sure you don't need the page, click "ok". The tab and page will be deleted from the work book.

Adding Pages:

If you need additional pages, like the Individual Time Record, follow the same steps to delete a page. When the menu comes up, select "insert". Depending on the version on Excel you have, a box will appear asking what you want to insert. Click on an entry for "worksheet".

Once you have added the "worksheet" the easiest way to copy the form is to left click the pointer on the upper left box between "A" and '1" on the form you wish to copy. The page will be shaded, right click on the mouse which will bring up a menu. Select the copy option. This will copy the entire form. On the new worksheet. Right click on the upper left box between the "A" and "1" box, the page will shade, then left click, the menu will appear. Select the Paste option, the form is now copied over. You will now need to set the page margins. By going to the original page, click on Page Setup. This will show you the page orientation and margins settings. You will need to set this for every new worksheet you insert.

Printing Pages:

Once you have a form completed and want to print it. Click on the upper left box between the "A" and "1" on the form. Left click the mouse and the form will shade. Select the button that looks like the paint can tipping over. This is the color menu. Click on the paint can, on the color menu select "No Color". This will allow you to print the form out in black and white, rather than color.

Submitting the Forms:

Form such as the Mobilization Request and Incident Complexity Analysis will be printed out and faxed in. If you can, please remove the pages not used, save the document with a name (example: School Fire Mobilization Request) and e-mail the document to the intended recipient. Depending on the form, such as the Mobilization Request Form, we'd ask that you follow up any e-mail or fax submission with a phone call to ensure that it is received.

If submitting claims, then we would ask that you save the file named in the following manner:

Richland FD - School Fire - Sept 2005

If you have a lot of personnel and want to submit personnel reimbursement in more than one file, name the file as:

Thurston #9 - School Fire - 2101 2103 2105 2108 - Sept 05

By submitting the file electronically, we won't need a copy of the time card as we have the white copy and Crew Time Reports at the office. Using descriptive names on the files will help us when getting the paperwork necessary to process the claim.

Need Assistance:

If you need help with these forms, call:

Dan Johnson at 360-596-3924, or Sue Carr 360-596-3925, or Esther Hernandez 360-596-3926

Comments/Suggestions:

If you have suggestions, improvements or comments, please e-mail them to: FPBMobe@wsp.wa.gov

Please provide feedback on these forms and let us know any issues that may arise. We understand that not every agency participates in Mobilization on a regular basis and that some may be new to the Mobilization process. Our goal is to streamline the paperwork and make the process as easy as possible.

| | ☐ (Type 2) Incident. | | | | | | |
| | ☐ (Type 1) Incident. | | | | | | |
| | ☐ The Type IMT has been ordered. The Type 3 IMT will continue to assume | | | | | | |
| | Command from the local jurisdiction and prepare to turn over the incident on: | | | | | | |
| | | 1/1/2000 | | | | | |

Incident Priorities:

As the delegating authority, I have the following expectations:

- The priority for protection ranked in order is as follows:
 - Personal safety of firefighters and the public;
 - Developed property;
 - Natural resources.
- Require compliance with the "18 Watch Out Situations" and the "Ten Standard Firefighting Orders" by all incident personnel.
- All personnel are to receive at a minimum 2 to 1 work to rest ratio. A twelve-hour rest for all
 personnel is preferred. Be mindful of the local crews when implementing this directive. As the
 Incident Commander, you will document and approve the Crew Time Reports for any deviation when
 the 2 to 1 work to rest ratio is not achieved or when a single shift exceeds 16 hours.
- Immediately notify the assigned agency representative when the health or safety of incident personnel has been compromised.
- Provide a written safety plan for the incident.
- Prepare a plan to gain control of the incident that takes into account: fire behavior, weather conditions, fuel load, current resources and available resources.

Incident Priorities: (continued)

- Cooperate with the local fire jurisdictions, law enforcement and emergency management in developing structural protection and evacuation plans are needed:
- Prepare a Structure Protection Plan that includes
 - Overview of the plan
 - Cooperating Agencies contact names and numbers
 - Consider Law Enforcement / EMD Liaison integration with IMT
 - Evacuation Trigger Points and procedures to be used
- Additionally, the evacuation process should be consistent with the WASPC Model Evacuation Policy.
- Prepare a back-up plan of control in the event that the initial control plan fails.
- Incident will support Initial Attack. If resources are needed on another incident, you will release them for initial attack in order to prevent other incidents from developing into large incidents.

Cost containment is a major concern. Be mindful of this both on line and in base camp activities.

- Resource requests need to be coordinated with the State Fire Marshal's Office Representative.

Agency Representatives:

Agencies providing representatives will be listed on the attached Agency Representatives Form. **See Agency Representatives Attachment**

Incident Business Advisor:

This section applies when this is a Mobilization incident. The Office of State Fire Marshal will provide personnel to the incident to carry out this function.

See Washington State Patrol – Incident Business Advisor Handout

Incident Management:

Establish unified command with: The local fire protection district(s) requesting Mobilization and surrounding mutual aid agencies.

- Establish a safe efficient transition with current incident management organization and build upon their accomplishments.
- In the case where the fire becomes a joint jurisdiction fire, (i.e., A DNR, USFS and Mobe fire), and is managed by a Type 1 or Type 2 Incident Management Team, an Expanded Dispatch is going to be handling all resource orders for the incident except those that are needed for structure protection and come from the Washington Fire Service. Those resources will still be
- Coordinate media communications through the Incident Management Team PIO and local PIO's at the incident.
- Complete an "extended attack complexity analysis" for this incident. Update the analysis as the situation changes. Consult with the assigned agency representative whenever the analysis suggests a change in the incident's complexity level.
 - Develop strategies that seek to minimize the acreage burned consistent with providing for safe and effective operations.
- If the base camp is more than a 30 minute drive to the fire, the utilization of a smaller remote base camp should be reviewed.
- You have full authority and responsibility for incident management activities and all other activities associated with the incident under your command within the framework of the law.
- Your primary responsibility is to organize and direct your assigned resources towards safe, efficient, and cost effective suppression/mitigation of the incident.
- Ensure personnel have plenty of water and are aware of the symptoms of dehydration.
- Ensure meals and additional supplies of water and Gatorade are made available.
- Specific constraints, issues, opportunities or requirements (legal, political, local resources, landowners, environmentally sensitive areas, farming operations, other agencies, land use, etc... include any infrastructure that needs particular attention i.e., cell or radio towers).

Type 1 or 2 Incident Complexity Analysis Form 2009 Version - Mobilization Plan

| Incident Name: | Rock Candy Mountain Fire | Size: | 75+ Acres | |
|----------------|--------------------------|--------|-----------|--|
| Completed By: | John Smith | Title: | IC | |

Guide to Completing the Incident Complexity Analysis (Type 1 and 2 Incidents)

- 1) Analyze each element and check the response, Yes or No.
- 2) If positive responses exceed, or are equal to, negative responses within any primary factor (A through G), the primary factor should be considered as a positive response.
- 3) If any three of the primary factors (A through G) are positive responses, this indicates the fire situation is or is predicted to be of Type 1 complexity.
- 4) Factor H should be considered after numbers 1-3 are completed. If more than two of the items in factor H are answered yes, and three or more of the other primary factors are positive responses, a Type 1 team should be considered. If the composites of H are negative, and there are fewer than three positive responses in the primary factors (A-G), a Type 2 team should be considered. If the answers to all questions in H are negative, it may be advisable to allow the existing overhead to continue action on the fire.
- 5) Enter a 1 in either the "yes" or "no" box per line. This would be the same as marking the box as affirmative.

Documentation Requirements

With each claim we need a copy of the Equipment Shift Tickets showing the miles operated each day. If we are reimbursing an individual and not a government agency, a W-9 IRS Tax form is needed for every incident.

Return the completed form within 45 days of the event.

This Type 3 Incident Management Team Roster is submitted with the following expectations:

- That each agency and local governing board supporting an incident management team member is responsible for ensuring that applicants are fully qualified to be considered for the position or positions for which he or she has applied.
- The Home jurisdiction is ultimately responsible for review of training, certification and credentialing of its participating employees.
- The minimum team configuration for accepting an assignment is 8 positions. Those positions are: Incident Commander, Safety Officer, Public Information Officer, Liaison Officer, Operations Section Chief, Planning Section Chief, Logistics Section Chief and Finance Section Chief.
- For wildland fire and hazardous materials incidents, additional requirements apply (refer to Section 11 of the Washington State Fire Services Resource Mobilization Plan).

Home Fire Jurisdiction Name

As a law enforcement agency, many aspects of the Washington State Patrol (WSP) are confidential. Therefore, successful completion of a polygraph examination and background investigation on all employees is required for permanent employment.

Personnel (who are not reimbursed by their home jurisdiction, but who will be reimbursed by the WSP under the State's Fire Mobilization Plan) will not be required to take the polygraph examination or background check. However, in order to be considered for future opportunities with the WSP in any capacity, you will be required to take and pass the polygraph examination and background check prior to employment with the WSP. Otherwise, your employment with the WSP will be limited to the Fire Protection Bureau working as an "emergency temporary firefighter" under the State's Mobilization Plan.

WAIVER:

I hereby waive the background check and polygraph examination required for employment with the Washington State Patrol. I agree to voluntarily take a polygraph examination and submit to a background check before I will be considered for any position with the Washington State Patrol other than as an "emergency temporary firefighter" under the State's Fire Mobilization Plan.

Further, my signature also indicates I have been provided a copy of the Code of Conduct, Sexual Harassment and Discrimination, Agency Rules and Alcohol and Drug Free Workplace policies.

Note: If you are contracted resource hired with a vehicle or equipment, you do not need to complete this form or the W-4. You will be required to complete a W-9 (Request for Taxpayer Identification Number and Certification Form).

To receive payment:

You must complete the WSP Waiver and W-4 (IRS Tax Withholding) for each mobilization incident. These documents must be submitted with your Emergency Firefighter Time Record and Crew Time Reports to the Finance Section. Claims submitted without the WSP Waiver or W-4 cannot be processed for payment.

To receive the increased pay beyond a FF2, you must show certification (red card) for the higher level position. Trainee positions below Strike Team Leader will be paid at the highest level carded.

If you have not received a check within 45 days from date of demobilization, or have a question regarding your pay contact the Mobilization Section. The preferable method is e-mail, provide your name, contact number, and your message to include the incident name and resource order number. We will contact you as soon as possible.

Code of Conduct

Resources mobilized to an incident shall promote and maintain a harmonious and productive work place environment. Core to the State Fire Marshal's values is the necessity that all employees deserve to be treated with the utmost respect and dignity. All resources shall strive to ensure that these basic ideals are promoted and maintained. Ultimately, this is the standard by which the State Fire Marshal will:

- Measure how employees interact with those they serve.
- Establish the expectation of how individuals will be treated and how individuals will treat others.

The State Fire Marshal will make available only those resources that align themselves with the following code of conduct.

The Code of Conduct entails the following qualities:

- · Lead by example;
- Be proficient in your craft;
- Promote a positive environment;
- Deal with issues directly;
- Empower others to solve problems;
- Treat others as equals and with respect;
- Expect the best;
- Share your knowledge.

Sexual Harassment and Discrimination

All personnel participating in a mobilized incident will abide by all federal and state laws prohibiting any form of discrimination or harassment. All forms of discrimination and harassment under state and federal laws are prohibited. The policies and work rules of your home agency govern your conduct. The Incident Commander will ensure all incidents of discrimination or harassment reported by personnel at the incident are preliminarily investigated.

The decision whether to demobilize personnel will reside with the Incident Commander in consultation with the State Fire Marshal's Office. The Incident Management Team is responsible for:

- Gathering initial statements, and;
- Contact information from witnesses, and;
- Notifying the employee's home agency of the complaint.

If the preliminary investigation reveals any potential violations of federal or state laws prohibiting discrimination or harassment, it is expected that a formal investigation will be done by the accused personnel's home agency according to the home agency rules and policies. The home agency will be responsible to investigate the incident, record the findings, and impose discipline if appropriate.

At the conclusion of the formal investigation, the home agency shall notify the State Fire Marshal's Office of the outcome. If the accused person is found to have engaged in misconduct as a result of the formal investigation, the home agency will also advise the status of the person's future participation in Mobilization.

If the home agency fails to notify the State Fire Marshal's office of the outcome of the formal investigation, the agency may not be called to participate in future State Mobilizations.

Agency Rules / Polices

Mobilized resources are required to follow their home agency's policies and work rules. Allegations of misconduct will be referred to the person's home agency. The home agency will be responsible for:

- Conducting an investigation into the allegation(s) to determine if there is a violation of home agency policy and/or procedure;
- Administering any corrective or disciplinary action for violation(s) of home agency policy and/or procedure.

Drug and Alcohol-Free Workplace

The unlawful manufacture, distribution, dispensing, possession or use of controlled substances (including alcoholic beverages) in the workplace or assigned workplace is prohibited. In compliance with the Federal Drug-Free Workplace Act of 1988, all employees and/or contractors are required to abide by this prohibition.

In addition to criminal prosecution, employees violating this prohibition will be subject to dismissal under the terms of the Fire Mobilization Plan and Fire Mobilization Temporary Employment Certification.

It is the Washington State Patrol's policy to maintain a drug and alcohol-free workplace. Drug abuse is a health hazard to the user and clearly undermines the workplace and causes unsafe work practices which are a danger to the abuser, to co-workers, and to the citizens of Washington State whose safety is one of our primary responsibilities.

Employees who may have a problem with drug abuse or chemical dependency are encouraged to seek assistance for rehabilitation.
