## POOL DRAWING

IMPORTANT! INCLUDE AB LINE IN YOUR SKETCH BELOW.

## MEASURING INSTRUCTIONS

## STEP 1

Sketch the inside dimensions of the pool (see example) on the next page. Include all non-removable details within three (3) feet of the water line, i.e. coping (width), rocks, grab rails, waterfalls, spas, ladders, raised walls, uneven decks, planters, etc. If you are measuring existing anchor points, then place the AB line 3 feet outside the anchor line.

## STEP 2

Using chalk, establish two points $A$ and $B$ (see example). Be sure that $A$ is on the LEFT and B is on the RIGHT while facing the pool. The distance between them should be roughly $2 / 3$ the length of the pool. (i.e. if the pool is 30 ft ., make A-B line 20 ft . BE SURE TO INDICATE DISTANCE BETWEEN A \& B AND SHOW LOCATION ON DRAWING. Make certain that the imaginary line between $A$ and $B$ and any extensions of it are at least three feet from the pools edge.

## STEP 4

Attach a tape measure to point $A$. (Pull tape tightly on each measurement). Now measure distance from point A to point 1, then point A to point 2 , and so on. List measurements in corresponding columns on the next page (see example). Move tape to point B, and measure in the same fashion; point B to point 1 , and so on. Tape should be level and not angel up or down any elevation.

## STEP 5

Pick two (2) numbered points representing the overall length of the pool at the water line (see example). List this measurement. Do the same for the overall width of the pool. These measurements are crucial as they act as check points to ensure all other measurements are correct.

## STEP 3

Make a chalk mark (number each mark) at roughly three (3) foot intervals around the entire pool. Be certain to number all corners, rail locations (front and back of rails), fill spouts, or other obstructions if they are not removable. Mark all points along spa side and pool side of diving wall. Mark areas at one (1) foot intervals when tight radius, rocks, raised walls, wateffalls, or similar obstructions are encountered. Diagrams with these types of obstructions should be accompanied by a photograph. Include width of spa wall or distance between spa and pool, if separate.

PT. 2-8 face of waterfall
PT. $3,4,9,10$ sides of materfall
PT. 12-15 pool side of dividing vall
PT. 16-24 inside spa wall
PT. 29-32 planter
PT. 37-38 handrails
PT. 42-48 face of raised rall
PT. 43,44,49,50 raised wall within $3^{\prime}$ of pool
PT. 53-54 inside rails of ladder
PT. 55-56 ladder rail location on deck
PT. 61-62 slide legs
T. 8-41 overall length

PT. 25-64 overall width \# 1
PT. 33-51 overall width \# 2

|  | FT |  |
| :--- | :--- | :--- |
| DISTANCE FROM "A" TO "B" |  |  |

FT IN

| Overall Length |  |  | From PT \# |  | TO PT \# |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Overall Width |  |  | From PT \# |  | TO PT \# |  |
| Optional 2nd Overall Length |  |  | From PT \# |  | TO PT \# |  |
| Optional 2nd Overall Width |  |  | From PT \# | TO PT \# |  |  |
