

U.S. Army Soldier Leader Risk Reduction Tool (USA SLRRT)

INSTRUCTIONS FOR LEADERS

This tool is designed to help leaders identify potential risks among their Soldiers. If a Soldier has a concern or problem, provide him/her with options (suggestions are provided under "Leader Action" for each issue of concern), ensure that you follow up with him/her, and continue to address the plan of action as necessary. Document any pertinent issues of concern and the associated action plan on the Developmental Counseling Form, DA Form 4856.

Refer to Appendix B in the 'Guide for Use of the USA SLRRT' for a more complete list of resources available to assist Soldiers.

Leaders should consult with legal counsel if Article 31 rights may apply.
