#### YOUR HELP IS NEEDED

The patient shown above has filed for or is receiving Social Security or Supplemental Security Income benefits. We need you to complete the back of this form and return it to us in the enclosed envelope to help us decide if we should pay this person directly or if he or she needs a representative payee to manage the Social Security Administration (SSA) benefits on his or her behalf.

**Please Note**: This determination affects how benefits are paid and has no bearing on disability determinations. Unfortunately, SSA cannot compensate you for the time it takes to provide this information. Thank you for your help.

### WHAT IS A REPRESENTATIVE PAYEE

A representative payee is someone who manages the patient's SSA benefits to make sure the patient's basic needs are met. The payee has a strong and continuing interest in the patient's well-being and is usually a family member or close friend.

### WHO NEEDS A REPRESENTATIVE PAYEE

Some individuals age 18 and older who have mental or physical impairments are not capable of managing their SSA benefits or directing others to manage them to meet their basic needs, so we select a representative payee to receive their benefits on their behalf. Examples of impairments that may cause incapability are dementia, brain damage or chronic schizophrenia. However, a person's need for some assistance with financial tasks such as bill paying, etc., does not necessarily mean he or she cannot make decisions concerning basic needs and is incapable of managing his or her own benefits. If the individual is able to direct the management of his or her own benefits, then we will consider the individual capable.
