ADVANCED SHEET METAL FABRICATION

Author Name: by Timothy Remus
Advanced Sheet Metal Fabrication Techniques is a photo-intensive how-to book. See Craig Naff fabricate a Rolls Royce fender, Rob Roehl create a motorcycle gas tank, Mike Pavletic repair an Alfa Romeo, Ron Covell form part of a quarter midget body, and Fay Butler shape an aircraft wheel fairing and the front section for a Lotus race car. Demonstrations include use of the English wheel, power hammer, shrinkers and stretchers, and of course the hammer and dolly. Photo sequences cover building the buck, creating a paper template, cutting the steel or aluminum, forming the piece, welding the panels, and finishing the seams. **Publisher:** Wolfgang Publications 2003 Softbound 144 pages: 250 illustrations 27.7 x 21.3 x 0.8 cm **ISBN Number:** 192913312X / 9781929133123 **\$49.95**

ADVANCED TIG WELDING DVD

(NTSC FORMAT) by Ron Covell: This programme covers many advanced topics in TIG welding, including welding chrome moly steel, stainless steel, aluminium, magnesium, bronze, copper, and titanium. You'll also learn how to weld castings made from aluminium, magnesium, and bronze. Clear guidelines are given for using the pulse and waveform adjustments that many new welders have, along with great practical advice on machine setup, joint preparation, and weld finishing. Ron's clear and detailed instructions are easy to follow, and the striking close-up photography shows you exactly what to look for as you weld! Covell Creative Metal Working 2010 Slipcased/Boxed 19 x 14 **Playing Time** 111 minutes **\$60.00**

ART OF WELDING Argus Workshop Practice No 7 by W.A. Vause This book sets out the basic techniques for oxyacetylene welding, brazing, flame cutting and electric arc welding with mild steel, cast iron, stainless steel, copper, brass etc. in sheet, plate or cast form. Special Interest Model Books 1986 Soft bound 96 pages Many technical diagrams and some black & white photographs 20.4 x 14.6 x 0.8 cm **ISBN Number:** 0852428464 / 9780852428467 **\$19.95**

BASIC TECHNIQUES FOR STEEL

DVD (NTSC FORMAT) by Ron Covell: Probably the most comprehensive metalworking video to date. Ron demonstrates the fundamentals of hammer and dolly technique, and shows how to do high level metal work that requires no filler He starts with a 1932 Morgan in bad condition, and goes through every step of perfectly restoring the body. You'll see

great demo's of hole filling patch panels, wired edge repair, rust repair, TIG welding, metal-finishing, and shrinking. This video shows you how top quality metal-work can be done with very simple tools: Covell Creative Metal Working Slipcased/Boxed 19 x 14 Dimensions: **Playing Time** 100 minutes **\$60.00**

CHOPPING AND SECTIONING DVD (NTSC FORMAT)

by Ron Covell: A radically rework a'56 Studebaker pickup giving it a 4" chop, a 6" section, and apie cutting the hood- Every step is shown with clear detail See how where to lay out the cuts, different ways to cut the metal, and how to fit the pieces back together to establish flowing contours. There are demo's on the English Wheel, planishing hammer and Pullmax (with shrinking dies) plus TIG welding and plasma cutting- **Special attention is paid to getting the gaps uniform.** Covell Creative Metal Working Slipcased/Boxed 19 x 14 cm **Playing Time** 100 minutes **\$60.00: IN STOCK**

HOW TO WELD TECHNIQUES AND TIPS FOR BEGINNERS AND PROSMOTORBOOKS

WORKSHOP SERIES by Todd Bridgum This book is the perfect introduction for neophytes and an excellent refresher for veteran welders, a work so comprehensive and so complete that most readers wont need any further instruction. **How to Weld** starts with a brief history of welding, an overview of the different types of welding, and a thorough discussion of safety practices. Describes various tools and types of metals, as well as techniques and types of joints and discusses gas, stick, wire-feed (MIG and TIG), even brazing, completing each section with a series of exercises MBI Publishing 2008 Soft bound 208 pages 400 illustrations 26.8 x 20.8 x 2 cm **ISBN Number:** 076033174X / 9780760331743 **\$39.95**

METAL FABRICATOR'S HANDBOOK

by Ron & Sue Fournier, *For the reader with more than a passing interest in automotive fabrication, this book is an excellent acquisition.*— Road & Track **MOTO Award Winner** How to build structurally sound, good looking metal parts for custom street rods, race cars or restorations. Over 350

step-by-step photos and instructions illustrate proper welding, metal shaping, and design techniques. HP Books Automotive 1990 Soft bound 176 pages well illustrated: 27.2 x 21.3 x 0.5 cm **ISBN Number:** 0895868709 / 9780895868701 **HP Book No:** HP709 **EAN:** 9780895868701 52195 **UPC:** 07547800870 4 **\$34.95**

MIG WELDING MADE EASY DVD

(NTSC FORMAT) by Ron Covell: Covers the basic processes used for MIG welding, covering proper machine setup, joint preparation, electrode selection & preparation, torch technique, and perhaps most importantly, what to check for when things go wrong! Ron's thoughtful description, coupled with close-up photography makes the seemingly difficult process of MIG welding easy to understand. Covell Creative Metal Working 2008 Slipcased/Boxed 19 x 14 cm **Playing Time 80 minutes \$60.00**

ULTIMATE SHEET METAL FABRICATION BOOK by Timothy Remus, Whether you're restoring an old Packard, building a unique hot rod, customizing your Harley-Davidson, or trying to keep an old biplane in the air, the parts you require can't be purchased from a catalog. Eleven chapters cover: Design and Layout, Tools and Materials, and Welding Sheet Metal. Included are Fabrication Sequences with skilled craftsmen like Ron Covell, Steve Davis, Bo Olson and Bob Munroe. Over 350 photographs document the creation of a motorcycle fender, an automotive fender, part of an airplane cowl, a hot rod deck lid, the body of a pedal car and a blower scoop. Presented here is the information you need to build your own sheet metal parts from steel or aluminum. From simple hand work with a hammer and dolly to sophisticated shaping with large power tools, this book covers the methods you need to shape sheet metal. **Binding:** Soft bound Wolfgang Publications 1999 Soft Bound 144 pages 250 illustrations 27.4 x 21.1 x 1.3 cm ISBN Number: 0964135892 / 9780964135895 **\$39.95**

PERFORMANCE WELDING HANDBOOK Motorbooks Workshop Series by Richard Finch A comprehensive guide that will help you not only choose the right welding equipment and make error-free weld joints, but it also offers tips on working with all kinds of metals in a variety of welding processes, including TIG, MIG, and gas. He also provides charts that offer

essential information on welding rod options, welding alloys for aluminum and magnesium, and fluxes. MBI Publishing 2005 Softbound: 160 pages 200 illustrations 26.7 x 20.3 x 1.3 cm ISBN Number: 0760321728 / 9780760321720 **\$39.95**

SHAPING ALUMINUM WITH HAND TOOLS DVD

with Ron Covell Watch Ron go through every step of making a track roadster nose, demonstrating techniques suitable for making virtually any body panel. He starts with a station buck defining the shape, shows how the patterns are made, then shows each piece and joins them together. Annealing, mallet and sandbag rough shaping, hammer and dolly smoothing, metal finishing, and both oxy-acetylene and TIG welding are covered. If you've never seen metal shaped by hand, you may be astounded by how simple the process is! **DVD, NTSC standard, color 76 Mins \$60.00**

WELDERS HANDBOOK Revised Edition Subtitled: A Complete Guide to MIG, TIG, Arc & Oxyacetylene Welding. by Richard Finch Whether you're building an engine stand, race car chassis or airplane fuselage, you'll learn the proper techniques to get the job done right. **WELD LIKE THE PROS** Learn to weld like a top professional with *HPBooks'* bestselling *Welder's Handbook*.

Since the first edition in 1985, thousands of aviation and automotive engineers, enthusiasts, racers, students, mechanics and trade craftsmen have relied on the welding techniques and tips from certified master welder Richard Finch. *Revised and updated* with the latest information on equipment and techniques, the *Welder's Handbook* is **NOW BETTER THAN EVER!** HP Books Automotive 2007 Soft bound 192 pages 300 illustrations 27.9 x 21.8 x 1 cm **HP Book No: HP-1513** ISBN Number: 1557885133 / 9781557885135 **\$34.95**

TIG WELDING BASICS DVD (NTSC FORMAT) by Ron Covell: Covers the basic processes used for TIG welding, covering proper machine setup, joint preparation, electrode selection & preparation, torch technique, and perhaps most importantly, what to check for when things go wrong! Ron's thoughtful description, coupled with close-up

WELDING GUIDE LINES WITH AIRCRAFT SUPPLEMENTS by William H Kielhorn, **A most sought after and complete book on aircraft welding.** Aviation Maintenance Pub 1978 Soft bound 187 pages Illustrated **Number of pages: 25.9 x 19.8 x 1 cm** ISBN Number: 0891000763 / 9780891000761 **In Stock ONE COPY - OUT OF**

photography makes the seemingly difficult process of TIG welding easy to understand. Covell Creative Metal Working 2006 Slipcased/Boxed 19 x 14 cm **Playing Time 80 minutes \$60.00**
