

## 1-D-1 Open Space Agricultural Valuation Wildlife Management Annual Report for the Year(s) Submit this plan to your County Tax Appraiser, not to Texas Parks and Wildlife Department

#### Part I. Owner Information Account Number:

Owner's Name:		
Current mailing address:		
City, town, post office, state and zip of	ode:	
Phone number:		
Tract Name:	Majority County:	
Additional Counties (if any):		

### Part II. Qualifying Wildlife Management Activities

Check the wildlife management practices implemented on the property during the year being reported. A minimum of three practices is required.
☐ Habitat control
Erosion control
Predator control
☐ Making census counts to determine population.
Provide supplemental supplies of water
Provide supplemental supplies of food
Provide shelters

#### Part III. Wildlife Management Association Membership

Are you a member of a wildlife property association?	□ Yes	🗌 No	
Name of wildlife property co-op/association, if YES is checked.			

#### Part IV. Wildlife Management Activities

# Check the activities you have implemented during the year to support each of the wildlife management activities listed in Part II.

1. HABITAT CONTROL
□ Grazing management. Check grazing system being utilized.         □ 1 herd/3pasture       □ 1 herd/4 pasture       □ 1 herd/multiple pasture         □ High intensity/low frequency (HILF)       □ Short duration system         □ Other type of grazing system (describe)
Prescribed Burning     Acres to be burned: Planned burn date: Additional Information:
Range Enhancement (Range Reseeding) Acres to be seeded: Date to be seeded: Seeding Method: □ Broadcast □ Drilled □ Native Hay Seeding mixture to be used: Fertilized: □ Yes □ No Weed control needed for establishment? □ Yes □ No Additional Information:
Brush Management. Acres to be treated:       Check method of brush management:         Mechanical       grubber       chain       roller chopper/aerator       rhome disc         brush hog (shredder)       dozer       hand-cutting (chainsaw)         hydraulic shears       other (describe):
Fence Modification Target species: pronghorn antelope bighorn sheep Technique: fold up bottom of net-wire Gap width: replace sections of net-wire with barbed wire. Gap width: Miles of fencing that will be modified: replace entire net-wire fence with barbed wire. Miles replaced: Additional Information:

Riparian management and enhancement         Fencing of riparian area         Complete fencing         Deferment from livestock grazing         Complete deferment         partial deferment         Season deferred :         Trees (list species)         Shrubs (list species)         Herbaceous species (list)
Wetland enhancement  Provide seasonal water  Provide permanent water  Moist soil management  Other (describe)  Additional Information:
<ul> <li>Habitat Protection for species of concern</li> <li>Fencing Firebreaks Prescribed burning Control of nest parasites</li> <li>Habitat manipulation (thinning, etc.) Native/exotic ungulate control</li> <li>Other (describe)</li> <li>Additional Information:</li> </ul>
Prescribed Control of Native, Exotic and Feral Species   Prescribed control of vegetation Prescribed control of animal species   Species being controlled:
Wildlife Restoration       Wildlife restoration         Habitat restoration       Wildlife restoration         Target species:       Method of restoration:         Method of restoration:       Additional Information:

2. EROSION CONTROL
Pond construction and repair     Surface area (acres): Number of cubic yards of soil displaced: Length of dam (feet): Planned date of construction: Additional Information:
Gully shaping     Total acres to be treated: Acres treated annually:     Seeding mix used for reestablishment of vegetation:     Planned date of construction:     Additional Information:
<ul> <li>Streamside, pond, and wetland revegetation. Techniques used:</li> <li>Native hay bales</li> <li>Fencing</li> <li>Filter strips</li> <li>Seeding upland buffer</li> <li>Rip-rap, etc.</li> <li>stream crossings</li> <li>Other:</li> <li>Planned date of construction:</li> <li>Additional Information:</li> </ul>
<ul> <li>Herbaceous and/or woody plant establishment on critical areas (erodible)</li> <li>Establish windbreak</li> <li>Establish shrub mottes</li> <li>Improve plant diversity</li> <li>Improve wildlife habitat</li> <li>Conservation/no-till practices</li> <li>Manage CRP cover</li> </ul>
<ul> <li>Dike/Levee Construction/Management</li> <li>Reshaping/repairing erosion damage</li> <li>Install water control structure</li> <li>Additional Information:</li> </ul>
Establish water diversion         Type:       Channel       Ridge         Slope:       level       graded       Length (feet)         Vegetated:       No       Yes         If Yes:       Native:       Crop:         Additional Information:

3. PREDATOR CONTROL
<ul> <li>Imported red fire ants (verify prior to application that product is labeled for pasture use)</li> <li>Control of cowbirds Grackle/starling/house sparrow control</li> <li>Method of control: Trapping Shooting Baiting Scare tactics</li> <li>Coyotes Feral hogs Raccoon Skunk Bobcat Mountain lion</li> <li>Rat snakes Feral cats/dogs</li> <li>Method of control: Trapping Shooting M-44 (licensed applicators)</li> <li>Poison collars (1080 certified, licensed, applicator) Other</li> <li>Additional Information:</li> </ul>
4. SUPPLEMENTAL WATER
<ul> <li>Marsh/Wetland Restoration or Development</li> <li>Greentree reservoirs Shallow roost pond development Seasonally flooded crops</li> <li>Artificially created wetlands Marsh restoration/development/protection</li> <li>Prairie pothole restoration/development/protection Moist soil management units</li> <li>Planned date of construction:</li> <li>Additional Information:</li> </ul>
Well/trough/windmill overflow/other wildlife watering facilities         Drill new well       Depth:       Gallons per minute:         Windmill       Pump       Pipeline:       Size:       Length:         Modification(s) of existing water source       Length:       Length:       Distance between water sources (waterers):         Type of wildlife watering facility:       PVC pipe facility       Drum with faucet or float       #         Small game guzzler       Windmill supply pipe dripper       #         Big game guzzler       In-ground bowl trough       #         Flying saucer guzzler       Ranch Specialties guzzler       #         Other:       Ranch Specialties guzzler       #
Spring development and/or enhancement  Fencing Water diversion/pipeline Srush removal Spring clean out Other: Additional Information:

5. PROVIDING SUPPLEMENTAL FOOD
Grazing management Prescribed burning Range enhancement   Food plots Size: Fenced: Yes No   Irrigated: Yes No Plantings: Cool season annual crops:   Warm season annual crops: Warm season annual crops:   Prennial mix of native plants: Perennial mix of native plants:   Additional Information:
Feeders and mineral supplementation         Purpose:       Supplementation         Targeted wildlife species:         Feed type:       Mineral type:         Feeder type:       Number of feeders:         Method of mineral dispensing:         Number of mineral locations:         Year round:       Yes         No       If not, state when:
<ul> <li>Managing tame pasture, old fields and croplands</li> <li>Overseeding cool and/or warm season legumes and/or small grains</li> <li>Periodic disturbance (Discing/Mowing/Shredding)</li> <li>Conservation/no-till</li> <li>Additional Information:</li> </ul>
☐ Transition management of tame grass monocultures

.

6. PROVIDING SUPPLEMENTAL SHELTER
Nest boxes Target Species:
Brush piles and slash retention         Type:       Slash         Additional Information:
☐ Fence line management Length: Initial establishment: ☐ Yes ☐ No Plant type established: ☐ Trees ☐ Shrubs ☐ Forbs ☐ Grasses Additional Information:
Hay meadow, pasture and cropland management for wildlife Acres treated:
Half-cutting trees or shrubs Acreage to be treated annually: Number of half-cuts annually: Additional Information:
Woody plant/shrub establishment Pattern: Block Mosaic Strips: Width: Acreage or length established annually: Shrub/tree species used: Additional Information:
Natural cavity/snag development Species of snag: Size of snags: Number/acre: Additional Information:

7. CENSUS
Spotlight counts       Targeted species:         Length of route:       Visibility of route:         Dates (3 required)       A.         Additional Information:       B.
Standardized incidental observations       Targeted species:         Observations from:       Feeders       Food plots       Blinds       Vehicle       Other         Dates:
Stand counts of deer (5 one hour counts per stand required). Number of stands: Dates: Additional Information:
Aerial Counts       Species counted:         Type of survey:       Helicopter         Percent of area surveyed:       Total         50%       Other:         Additional Information:
☐ <i>Track counts:</i> ☐ Predators ☐ Furbearers ☐ Deer ☐ Other: Additional Information:
Daylight deer herd/wildlife composition counts Species: Deer Turkey Dove Quail Other Additional Information:
☐ Harvest data collection/record keeping: ☐ Deer ☐ Game birds ☐ Age ☐ Weight ☐ Sex ☐ Antler data ☐ Harvest date Additional Information:
Browse utilization surveys (thirty 12-foot circular plots required) Additional Information:
Census of endangered, threatened, or protected wildlife. Species:

Miscellaneous Counts:			Roost counts
Booming ground count	s 🔄 Time/area coun	ts 🔲 Songbird tran	sects and counts
Quail call and covey co	ounts	unts 🗌 Small m	ammal traps
Drift fences and pitfall t	raps 🔄 Bat depa	artures 🗌 Dove ca	Il counts
Chachalaca counts	Turkey hen/poultry c	ounts 🗌 Waterf	owl/water bird counts
Alligator nest/census co	ounts Other:		
ditional Information:			

Census and monitoring of nongame wildlife species. Species:

I certify that the above information provided by me is to the best of my knowledge and belief, true and complete.
