GOLD SHIELD QUALIFICATION REQUIREMENTS

A licensed Smog Check Test-and-Repair station seeking Gold Shield certification shall complete and file a Gold Shield Station Certification Application form (GSR-1 (Rev. 07/08)) and shall, as of the date the application is received by the Bureau of Automotive Repair, meet all of the following eligibility requirements:

1. The station's Comparative Failure Rate (CFR) over the preceding quarter must meet or exceed the industry-wide failure rate for Test-Only stations, by Smog Check Program area, as calculated quarterly by the Bureau.
2. The station must have conducted a minimum of 10 successful emissions repairs in the preceding quarter. For the purposes of this section, a "successful emission repair" means:
 - A. The vehicle must have failed the emissions portion of a Smog Check in official test mode or pre-test mode at any Smog Check station within 60 days prior to the repair;
 - B. The Smog Check station must have repaired the vehicle and entered repair data into the Vehicle Information Database; and
 - C. The vehicle must have been issued a Certificate of Compliance at any Smog Check station within 10 days following the repairs made by the applicant Smog Check station.
3. The station's repair performance in the preceding quarter must rate within the top 75% of test-and-repair stations in the same Smog Check Program area. A station's repair performance is computed by comparing the final emission readings of each successful emission repair to the average passing emission readings for the same model-year and emission standards category of the vehicle repaired.
4. The station must not have been issued any citations pursuant to Section 44050(a) of the Health and Safety Code within the preceding one-year period, nor employ any technicians who have been issued any citations pursuant to Section 44050(b) of the Health and Safety Code within the preceding one-year period. [Click here to verify a license.](#)
5. Neither the current nor any previous registration nor license of the **station owner, manager or licensed Smog Check technicians employed by the station:**
 - Been issued an order of suspension, a probationary order, or any other disciplinary order within the preceding three-year period. Be currently subject to suspension, probation or other disciplinary order. [Click here to verify a license.](#)
6. The **station owner, manager and licensed Smog Check technicians or other employees of the station:**
 - Must not have been convicted of a crime within the preceding three-year period that is substantially related to the duties of a licensed Automotive Repair Dealer, Smog Check station, or Smog Check technician.
 - Must not be serving a probationary period as a result of any such criminal proceeding.
 - Must not have been found liable in a civil proceeding, excluding small claims matters, within the preceding three-year period, for acts or omissions that are substantially related to the duties of a licensed Automotive Repair Dealer, Smog Check station, or Smog Check technician.
7. The station must not have engaged in any conduct that would be cause for discipline of the station's Automotive Repair Dealer registration or Smog Check station license.
8. The station must pass a Quality Assurance inspection administered by Bureau representative as part of the certification process. A Quality Assurance inspection consists of the following:
 - A. A verification of compliance with all licensure and license posting requirements.
 - B. A verification of compliance with all signage requirements.
 - C. A verification of compliance with all estimate, repair order, invoice and record keeping requirements.
 - D. A verification of possession of all required manuals and publications.
 - E. A verification of possession of all required tools and equipment and a verification of their proper working order.
 - F. Evaluations of licensed Smog Check technicians' ability to perform complete Smog Check inspections, diagnoses, and repairs of failed vehicles.

Smog Check stations located in Change of Ownership areas need only meet requirements 4-7, to obtain Gold Shield certification.
