## Employee Engagement is the Difference

The Voice of the Employee (VOE) survey was revised last year to measure employee engagement. What is significant about employee engagement? Employee engagement fosters and drives discretionary behavior, eliciting employees' best ideas and their genuine commitment to the success of our organization. Engaged employees feel valued, understand how they contribute to the organization's success, and work harder as a result.

External research shows a connection between employee engagement and business performance as a stronger indicator than any other measure of employee attitude and business performance. Analyses of VOE survey data conducted over the past year have consistently shown a significant relationship between employee engagement and the performance of the Postal Service™. Districts with higher VOE index scores tend to have better performance on several National Performance Assessment (NPA) indicators including Express Mail®, First-Class™ Overnight, First-Class 2-day, and First-Class 3–5 day service. Furthermore, more engaged districts have lower rates of motor vehicle accidents, injuries, and illnesses.

The quarter one, fiscal year 2011, results for the VOE survey are completed. More than 76,000 employees — 54 percent of those surveyed — responded. Of those who responded to the survey, 64.6 percent replied favorably. The majority of our employees understand the Postal Service's strategic direction and how their work affects the organization's success. Seventy-five percent of employees say they are proud to work for the Postal Service. Seventy-nine percent are aware of the security measures in the workplace, and the same percentage believes they have been properly trained to do their jobs.

The quarter two surveys are being mailed out now. Ensure all employees are given the opportunity to confidentially complete our employee engagement survey and return it by February 21.

### DMM Revision: Alternate Postage Payment Method for Greeting Cards Market Test

Effective February 7, 2011, the Postal Service™ will revise Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®) 709.3 to conduct a 2-year market test of the Alternate Postage Payment Method for Greeting Cards. The market test is effective from January 2, 2011, through December 31, 2012.

The Alternate Postage Payment Method for Greeting Cards relies on technology to identify, scan, and count each unique mailpiece as it moves through the postal system, and provides an easy, convenient way to send greeting cards without affixing postage.

Greeting card companies participating in this market test must produce machinable letter-size mailpieces with an Intelligent Mail® barcode (IMb), a legend, a Facing Identification Mark (FIM) E, and a postage permit imprint.

Greeting card companies interested in participating in the market test should contact the Postal Service Transactions and Correspondence Program office: Jenny Kalthoff, Marketing Specialist, at [janine.m.kalthoff@usps.gov](mailto:janine.m.kalthoff@usps.gov) or Veleana Hurd Whitaker, Marketing Specialist, at [veleana.hurdwhitaker@usps.gov](mailto:veleana.hurdwhitaker@usps.gov).

#### **3.0 Alternate Postage Payment Method for Greeting Cards**

##### **3.1 Description and Purpose**

An Alternate Postage Payment for Greeting Cards, using Intelligent Mail technology, is being tested in a 2-year program from January 2, 2011, through December 31, 2012. Participants pay for postage based on sales data reported to the Postal Service. Each mailpiece is scanned and counted as it moves through postal mail processing equipment. Reports allow a debit from the participant's Centralized Automated Processing System (CAPS) account for the postage that was not paid based on sales data. Mailpieces may be addressed to any domestic location by the sender.

##### **3.2 Prices and Fees**

There is no fee to participate in the market test. Participants agree to pay the market test postage price, which is higher than the First-Class Mail single-piece letter price, for each greeting card sold or mailed. Participants must have sufficient funds in their CAPS account to cover the market test postage for the mailpieces. Participants pay postage as follows:

- At least 50 percent of the market test postage price will be paid to the Postal Service based on the participant's reports of greeting cards sold. When a greeting card is sold to an individual customer, payment will be retained by the Postal Service, whether or not the greeting card is mailed.
- The remainder of the postage will be collected based on scans of Intelligent Mail barcodes on mailed pieces as specified in 4.5. The scans will produce a count of pieces processed, allowing appropriate postage to be deducted from the CAPS account.

##### **3.3 Eligibility for Participation**

Greeting card companies interested in participating in the market test must conform to the following standards:

- Each greeting card company must request and obtain written consent from Transactions and Correspondence (see 608.8.1).

- b. Each letter-size mailpiece must be tested and approved prior to distribution (see 3.5).
- c. Participants must print a unique Intelligent Mail barcode on each mailpiece using the Mailer ID (MID) assigned exclusively for the market test by the program office.
- d. Participants must establish quality control measures to ensure production of mailpieces meeting all standards in 4.0.

**3.4 Early Termination**

Participants that terminate the market test prior to the end of the program period must maintain their CAPS account and will remain liable for 100 percent of the market test postage for each greeting card sold, but not scanned, at the time they terminate the agreement.

**3.5 Mailpiece Characteristics**

Mailpieces must include the following elements:

- a. Intelligent Mail barcode.

- b. Legend: First-Class Mail, permit number, and the city and state where the permit is held. Participants must maintain a permit imprint account.
- c. Facing Identification Mark (FIM) E.
- d. Postage Imprint: "No Postage Necessary If Mailed in the United States".

**3.6 USPS Responsibility**

The Postal Service will assign Mailer IDs to be used exclusively for the market test; approve all mailpiece designs prior to the production, distribution, and sale of greeting cards; and conduct pre-production tests of mailpieces.

We will incorporate these revisions into the next printed version of the DMM and into the monthly update of the online DMM, which is available via Postal Explorer® at <http://pe.usps.com>.

**DMM Revision: New Preparation Standards for Flat-Size Mailpieces Destinating in FSS Zones**

Effective February 7, 2011, the Postal Service™ will revise *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)* 343.6.0, 343.7.0, 363.5.0, 363.6.0, 705.14.0, 707.13.0, 707.14.0 and Labeling List L006 to provide new standards for mail preparation of flat-size Standard Mail®, Periodicals, and Bound Printed Matter mailpieces prepared for delivery within the ZIP Codes™ served by Flats Sequencing System (FSS) processing.

The Postal Service is providing these expanded preparation options for mailers to increase the volume of mail arriving at FSS facilities that is already prepared and ready for processing. Increased flat-size volumes identified and prepared for immediate FSS processing will allow the Postal Service to enhance efficiency and control costs through the improved alignment of mail preparation with Postal Service processing operations.

The Postal Service first published standards for this optional program in the DMM on January 2, 2011. On December 16, 2010, via the *DMM Advisory*, the Postal Service announced its intent to provide additional modifications to the standards scheduled for publication on January 2, 2011. These new standards reflect the changes referenced in the December 16, 2010, *DMM Advisory*.

Mailers choosing to participate in the optional program will still be required to prepare bundles to FSS zones based on the standards provided in the original January 2, 2011, DMM change. However, mailers will now have the option to place 5-digit FSS scheme bundles on other pallet levels,

into sacks, or into approved alternate containers, when the volume is insufficient to create a pallet.

Mailers will continue to place qualifying mailpieces into a separate combined pool for each individual 5-digit FSS-scheme combination, and will continue to prepare and mark bundles as specified in the January 2, 2011, revision. When sufficient volume exists for any pallet level, bundles must still be placed on pallets, forming layers of consistent thickness; and bundles of nonuniform thickness must be counter-stacked on pallets in accordance with current standards. Pallets must continue to be prepared and labeled with a pallet placard bearing an Intelligent Mail® container barcode.

When 5-digit FSS scheme bundles are placed into sacks or approved alternate containers, these sacks or containers must bear an Intelligent Mail tray label. The barcode applied to any *FSS Sort Plan* or *FSS Facility* sack or alternate container must include the content identifier number (CIN) for the barcoded (or automation) 5-digit scheme sortation level for the applicable class of mail. Line 2 of the tray label will reflect the human-readable text provided in these revised standards.

**IMM Revision: Mail Preparation to Canada for International Priority Airmail and International Surface Air Lift Mail Services**

Effective March 7, 2011, the Postal Service™ will revise *Mailing Standards of the United States Postal Service*, International Mail Manual (IMM®) section 292.47 to clarify mail preparation requirements for International Priority Airmail™ (IPA®) service to Canada. We are also adding a new parallel section — 293.47 — for preparation requirements for International Surface Air Lift® (ISAL®) service to Canada.

These new standards will better distinguish the unique mail preparation standards for mailers who prepare IPA or ISAL mailings to Canada. In addition, mail preparation for Canada ISAL service will now be in its own section in IMM 293.47 (previously, mailers were referred to the IPA section in IMM 292.47).

**292.47 Mail Preparation for Canada**

[Revise 292.47 (including Exhibit 292.47) to read as follows:]

Mailers must prepare letter-size, flat-size, and package-size items destined to Canada in separate containers. To qualify for the presort price, the same eligibility requirements apply as for full service (see 292.232) or ISC drop shipment (see 292.233). If the total mailing contains less than 5 pounds of mail for Canada, then the mail qualifies only for the worldwide nonpresort price but may be included with mail for other countries. Mailings that exclusively contain worldwide nonpresort mail to Canada have a 50-pound minimum, and mailers must prepare them under 292.453 and 292.463. Mailers must prepare presorted IPA

mail (full-service price and ISC drop shipment price) to Canada as follows:

- a. *Letter-Size and Flat-Size Mail.* Prepare letter-size items in letter trays, either 1-foot or 2-foot, depending on volume. Prepare flat-size items in flat trays. Face all letter-size items and flat-size items in the same direction. Ensure that all trays are full enough to keep the mail from mixing during transportation. Cover (i.e., “sleeve”) all letter-size and flat-size trays and secure them with strapping. Do not prepare the content of trays in bundles.

Mailers must prepare letter-size, flat-size, and package-size items destined to Canada in separate containers. To qualify for the presort price, the same eligibility requirements apply as for full service (see 293.232) or ISC drop shipment (see 293.233). If the total mailing contains less than 5 pounds of mail for Canada, then the mail qualifies only for the worldwide nonpresort price but may be included with mail for other countries. Mailings that exclusively contain worldwide nonpresort mail to Canada have a 50-pound minimum, and mailers must prepare them under 293.453 and 293.463. Mailers must prepare presorted ISAL mail (full-service price and ISC drop shipment price) to Canada as follows:

- a. *Letter-Size and Flat-Size Mail.* Prepare letter-size items in letter trays, either 1-foot or 2-foot, depending on volume. Prepare flat-size items in flat trays. Face all letter-size items and flat-size items in the same direction. Ensure that all trays are full enough to

keep the mail from mixing during transportation. Cover (i.e., “sleeve”) all letter-size and flat-size trays and secure them with strapping. Do not prepare the content of trays in bundles.

- b. *Packages.* Prepare package-size items (i.e., items that cannot be prepared in trays because of their size or shape) loose in sacks. Affix PS Tag 155, *Surface Airlift Mail*, to the neck of the sack and write “Canada” on both the front and back of the tag.
- c. *Direct Country Container Label.* Identify each container (letter tray, flat tray, or sack) to show the Canadian destination, followed by the U.S. exchange office code, and the content, as defined in Exhibit 293.47.

## IMM Revision: New Effective Date for Mail Preparation Changes to International Priority Airmail and International Surface Air Lift Mail Services

The article "IMM Revision: Mail Preparation Changes to International Priority Airmail and International Surface Air Lift Mail Services" in *Postal Bulletin* 22302 (1-13-11, pages 5–10) noted that the effective date of the revisions would be March 27, 2011. However, due to revised publication dates for *Mailing Standards of the United States Postal Service*, International Mail Manual (IMM<sup>®</sup>), the effective date for the revisions noted in that article will be April 17, 2011.

Also, because of the addition of section 293.47 — as noted on page 11 in this issue of the *Postal Bulletin* in the article titled "IMM Revision: Mail Preparation to Canada for

International Priority Airmail and International Surface Air Lift Mail Services" — the cross-reference for the Canada entry in Exhibit 293.452 will be "293.47" (rather than "292.47" as noted in the article in 1-13-11).

All the other revision information in the article from 1-13-11 remains the same.

## Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international postal money orders.
2. Check that the proper security features are present:
  - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
  - When held to the light, a dark line (security thread) runs from top to bottom with the word “USPS” repeated.
  - There should be no discoloration around the dollar amounts, which might indicate the amounts were changes.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at <http://www.usps.com/missingmoneyorders/security.htm>.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

### Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table below outlines these conditions by APO/FPO/DPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) page following the table).

Acceptance clerks should use the table with the integrated retail terminal (IRT) or POS ONE terminal to determine which APO/FPO/DPO ZIP Codes are active and

which conditions of mailing apply. **Acceptance clerks may contact the Military Postal Service Agency with any questions regarding APO/FPO/DPO ZIP Codes, toll free, at 800-810-6098, Monday–Friday, 0730–1600 ET.**

For Express Mail Military Service (EMMS) availability, all acceptance clerks must refer to the local hardcopy EMMS directory.

The entries under “Changes” appear in bold in the APO/FPO/DPO table starting below.

**Stamp Announcement 11-08: Patriotic Quill and Inkwell**

© 2010 USPS

On February 14, 2011, in Kansas City, Missouri, the Postal Service™ will issue a *Patriotic Quill and Inkwell* 44-cent definitive stamp, in one design in a pressure-sensitive adhesive (PSA) coil of 3,000 stamps (Item 772100) and a PSA coil of 10,000 (Item 772200). The stamp, designed by Craig Frazier, Mill Valley, California, goes on sale nationwide February 14, 2011.

The stamp features a white quill pen dipping into a red-white-and-blue inkwell accented with stars. The image evokes the founding era and highlights the links between today's correspondence and the past.

Craig Frazier, an illustrator who lives in Mill Valley, California, created the stamp art digitally. As for the dark blue and cream colors chosen for the background, according to Art Director, Derry Noyes, Washington, DC, "they help make the red, white and blue pop off the page, without detracting from or competing with the strong silhouette."

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears below. The sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of these postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and requests must be postmarked no later than 30 days following the requested pictorial postmark date.

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers wishing to obtain a postmark should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: Pictorial Postmarks, followed by the Name of the Station, Address, City, State, ZIP+4® Code, as listed below.

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

How to Order the First Day of Issue Digital Color or Traditional Postmarks

Customers have 60 days to obtain the first day of issue postmarks by mail. They may purchase new stamps at their local Post Office™, by telephone at 800-STAMP-24, or at The Postal Store® website at [www.usps.com/shop](http://www.usps.com/shop).

**Traditional Postmarks**

Customers should affix the stamps to envelopes of their choice, address them to themselves or others, or provide a self-addressed return envelope with sufficient postage large enough to accommodate the canceled item. Mail the request to the corresponding city of issuance. There is no charge for the first 50 postmarks. There is a 5-cent charge for each additional postmark over 50. Customers should submit a check, money order, or credit card for payment. After applying the first day of issue postmark, the Postal Service™ will return the envelopes to the customer by U.S. Mail.

All postmark requests should go to the first day of issue city. The first day of issue city Post Office will then forward in bulk all postmark requests to Cancellation Services, Stamp Fulfillment Services, PO Box 449992, Kansas City, MO 64144-9992 by respective Post Offices.

**Digital Color Postmarks**

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as “laser safe.” The Postal Service recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16" side seams with no glue on the flap. The maximum size of all digital color postmarks is 2" high x 4" long. Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers should submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of nonspecified envelopes results in poor image quality or damage to equipment.

Customers should affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their can-

celed items, with sufficient postage affixed for return of their postmarked items. Mail the request for a first day of issue digital color postmark to the corresponding city of issuance. Post Offices will then forward all customer requests for digital color postmarks to Cancellation

Services, Stamp Fulfillment Services, PO Box 449992, Kansas City, MO 64144-9992.

After applying the first day of issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail.

**Stop Sending Copies of PS Form 8176, Premium Forwarding Service Application, to Headquarters**

Offices are no longer required to send a copy of PS Form 8176, *Premium Forwarding Service*® (*PFS*®) *Application*, to Headquarters (HQ). This requirement ended in 2007 when the application was revised and page 4 (HQ copy) was removed. In 2005, the PFS program office at HQ required a copy of page 4 when PFS was an experiment.

However, the experiment ended in 2007 when PFS became an official product offering. Offices that still send copies to HQ are wasting workhours and money — especially some offices that send them by *Express Mail*®, *Registered Mail*®, and *Priority Mail*® service.

### Requirements for Reconciling Postal Voyager Fleet Card Purchases

Regular review and reconciliation of purchase transactions for vehicle fuel and repairs with the Postal Voyager Fleet Card is essential to protect the Postal Service™ from fraud, waste, and abuse.

Although the vast majority of transactions are correct, fraud and abuse do occur. More significantly, serious incidents of “credit card cloning” and fraudulent purchases by non-Postal parties have occurred recently in the Great Lakes and Pacific Areas. In addition, ongoing Sarbanes-Oxley (SOX) testing continues to reveal that 13 percent of randomly selected vehicle offices do not correctly complete reconciliation activities and are failing to detect duplicate, incorrect, or fraudulent charges. Left unnoticed and unchecked, these abuses cost the Postal Service millions of dollars annually.

Postmasters and local site managers must reconcile credit card transactions at least monthly and investigate and resolve unauthorized or unusual transactions promptly in the eFleet system. They also must dispute and report to Voyager any transactions that cannot be validated within 60 days of the original transaction using a USPS® Voyager Account Dispute form. Offices must also report any evidence of fraudulent activity to the Office of Inspector General. In addition, offices are to keep invoices and reports on

file for 2 years. These procedures are explained in the Voyager Fleet Card Standard Operating Procedures located at [http://blue.usps.gov/purchase/voyager/downloads/voyager\\_guide.pdf](http://blue.usps.gov/purchase/voyager/downloads/voyager_guide.pdf).

The eFleet Card System (FAMS-eFleet) allows postmasters and local site managers to accomplish the aforementioned monitoring and transaction validation. This system also highlights potentially questionable transactions as exceptions. You will soon see a requirement to add a comment documenting your examination results in FAMS for all high-risk transactions. It is recommended that you begin adding such comments now to familiarize yourself with the process before it becomes a mandatory SOX requirement. Training on current reconciliation procedures is available at <http://blue.usps.gov/purchase/voyager/overview.shtml>.

Direct any questions to Kimya C. Moore at 202-268-8525 or Donald R. Perrin at 202-268-2110. Postal Service financial accountability depends on you!
